## **Practical Ai Tools For Teachers For Students:**

*Artificial Intelligence Applications in Higher Education* Helen Crompton, Diane Burke, 2024-10-31 Artificial Intelligence Applications in Higher Education offers direct examples of how artificial intelligence systems can be applied in today's higher education contexts. As the use of AI rapidly advances within colleges and universities worldwide, there is a pressing need to showcase the challenges, opportunities, and ethical considerations that are inherent in deploying these advanced computational tools. This book highlights the multifaceted roles of AI across teaching and learning, institutional administration, student data management, and beyond. Its collected case studies furnish actionable insights into enhancing academic institutions and addressing diverse learning priorities such as motivation, engagement, feedback, and achievement goals. This valuable reference for researchers, designers, administrators, teaching faculty, and graduate students across various university programs offers fresh perspectives on generative AI, adaptive learning, intelligent tutoring systems, chatbots, predictive technologies, remote learning, and more.

*The Power of Technology in School Leadership during COVID-19* Antonios Kafa, Nikleia Eteokleous, 2024-02-28 This book discusses school leaders' ability to use digital technologies successfully through specific approaches and techniques. It also discusses the technological challenges arising from the COVID-19 pandemic and the obstacles derived from the lack of digital capacity of school leaders in various contexts. The work addresses school leaders' experiences, confidence, competence, skills, and practices to use digital technologies effectively. Also, it explores how the COVID-19 pandemic influenced school leaders' role in establishing effective processes towards educational digital transformation and provides further knowledge as part of school leaders' digital professional development aspect. The book draws information and knowledge from the thematic areas of technology and school leadership in educational practice and includes both conceptual and empirical information on autonomous and less autonomous educational systems, centralized and decentralized education systems. Overall, this edited book fills the gap with information on the connection between school leadership and technology as an aftermath of the COVID-19 pandemic in school organizations.
