Women Startups Amelia Green, AI, 2025-03-04 *Women Startups* offers a comprehensive guide for female entrepreneurs navigating the complexities of launching and scaling businesses. It emphasizes the importance of understanding both fundamental business principles and the unique challenges women face such as gender bias in funding and societal expectations. The book underscores how empowering female entrepreneurs can unlock untapped potential and contribute to a more equitable economic landscape. The approach taken avoids anecdotal advice instead presenting well researched strategies supported by empirical data and real world examples. Intriguing insights include strategies for securing funding through venture capital and alternative sources as well as building inclusive teams and fostering effective leadership. The book progresses from introducing core entrepreneurial concepts to delving into funding strategies and leadership culminating in actionable steps for aspiring and current female entrepreneurs. Ultimately this book distinguishes itself by blending practical guidance with academic rigor written in an accessible style tailored for aspiring entrepreneurs business owners and those interested in promoting gender diversity within the business world. By addressing the gender pay gap and the underrepresentation of women in leadership it offers informed perspectives and actionable solutions making it a valuable resource for anyone seeking to understand and navigate the nuances of female entrepreneurship and business management.

Artificial Intelligence in Business Management Mohammed Majeed, 2024-08-07 *Artificial Intelligence in Business Management* is a review of artificial intelligence AI applications in businesses. This book adopts a cross disciplinary strategy toward AI adoption. Book chapters explore many projects that go beyond simple data management and accessibility to showcase the growing role of artificial intelligence and machine learning in the enterprise data space. AI methods for tackling marketing and commercial strategies as well as the use of AI and machine learning in tourism insurance and healthcare systems are discussed. A study on the significance of cultural assets in evaluating risks and protection is also presented. The content gives valuable insights on the application and implications of artificial intelligence and machine learning from this book to readers aiming for corporate roles such as directors executives senior software developers and digital transformation managers. The book is an essential resource for researchers and professionals in business economics and allied disciplines.
