*On New Shores* Susan S. Chuang, Robert P. Moreno, 2008-09-26 Over the past several decades researchers as well as social policymakers and educators have acknowledged the importance that fathers play in their children's lives. A good deal of research on fathering has been conducted among Euro American families in North America. However, our understanding of fathering across various ethnic groups remains limited. Throughout Canada and the United States, the immigrant population has been growing rapidly. Currently, no book has delineated the field of immigrant fathering from a comprehensive and multidisciplinary perspective which includes theory, research, and social policy. Researchers are widely recognizing that the theoretical frameworks and models of parenting and more specifically fathering that were based on Euro American families may not be relevant to other ethnic groups. As researchers refine theoretical and methodological approaches to understand fathering within sociocultural contexts, they become more cognizant of the varying meanings of parenting between and within ethnic groups. *On New Shores* extends the understanding of fathering in ethnic minority families and specifically focuses on immigrant fathers, an area which has remained fairly uncharted. The book provides readers with a richer and more comprehensive approach to how researchers, practitioners, and social policymakers can examine fathering among ethnic minority families.

**The Myth of Child Protection** Rona Jualla van Oudenhoven, Dawn Walcott-Parris, Steve Woodman, 2022-07-15 The *Myth of Child Protection* captures the harsh, ironic reality of the harm that arises when well-intentioned systems are broken. This book serves as a guide for persons who want to create change for the better in the system. It is an apology to all those children and youth whom the system has failed. At the same time, it is a pledge to do better by those still present and others yet to come. In those instances where intervention did more good than harm, it is a recognition of this good. This journal of collective writing is geared towards jointly generating new knowledge that is fueled by the past, seeks to inform the present, and shape the future. Included in this book are the critical voices of advocacy and allyship united in change. It is a unique collection of essays, guides, and best practices that would normally stay in quiet quarters as documents circulating within agencies. Instead, it recognizes the good work already being done and the need to use these bodies of work as best practice because they come from within the organizations, and in that sense, the true experts. This book is dedicated to all children and youth in the child welfare system.
