The Long Game: Sustaining a Successful Career in Teaching Peter Foster, 2024-12-31. Why do some teachers stay in teaching? And why do others leave? Why do some enjoy it whilst others find it an unrelenting slog? Answers to these questions are elusive but vital for new teachers, school leaders, and everyone in between. Using research from wide-ranging fields and experience from real teachers, *The Long Game* examines how teachers can sustain and enjoy successful careers in teaching. Divided into five parts, the book explores the persistent challenges of being a teacher by breaking them down into problems and solutions. The chapters unpack the factors that get in the way of our success or enjoyment of teaching and considers the different ways these problems can be tackled, addressing key concerns including: How to maintain motivation as you juggle work and life; How to manage intensity in a non-stop job; How to embed effective long-lasting habits to save time and mental effort; How to reduce workload, not just manage it; How to teach successfully and have impact in a way that lasts. Teaching isn't like a game because it is frivolous or simple. But it is an infinitely layered problem we can spend our careers trying to solve. To sustain a successful and enjoyable career in teaching, we need to embed strategies and approaches that will minimise the challenges and maximise our enjoyment. *The Long Game* will help teachers to hold onto the joy in teaching by facing the challenges head on.

Teaching Poetry in a Digital World Stefani Boutelier, Sarah J. Donovan, 2025-04-30. Teaching Poetry in a Digital World supports English language arts (ELA) educators for grades 6-12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry. In an increasingly digital age, educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom. This book introduces its audience to the ePoetry Framework. This framework demonstrates how poetry might present itself in a literacy-based unit with the benefit of a technology medium to share with the world. Examples include teaching a zip ode, poetry incorporating haiku with the creation of GIFs, and ethically discussing AI with nonet poems. With adaptable lesson plans and assessments, as well as educator examples, the book will inspire teachers to create intentional student-centered ePoetry units. The book is aligned with ELA literacy standards, International Society for Technology in Education (ISTE) educator standards, and National Council of Teachers of English (NCTE)'s position statement for integrating technology into ELA classrooms. It is a key resource for secondary school educators teaching ELA creative writing and digital media.
