Succeeding with Your Master's Dissertation A Step-by-Step Handbook BIGGAM, 2025-10-10 Biggam offers a clear rationale for why a dissertation is a standard part of many master's programmes and provides a user friendly approach to planning and writing large pieces of work His pragmatic advice and guidance on good practice will help students to keep on track with their dissertations and avoid common errors This new edition has been fully updated and includes useful advice on topics such as Generative AI and academic integrity The writing style is accessible and reassuring and the extensive content will be applicable to students across disciplines Donna Murray Head of Taught Student Development University of Edinburgh UK Do you want to ensure you are successful with your master's dissertation Then this book is for you Brimming with examples of good practice *Succeeding with Your Master's Dissertation* offers clear straightforward and practical support for each stage of the master's dissertation from proposal to submission It features step by step guidance on how to clarify your research objectives produce a research proposal complete each chapter of a traditional dissertation reference sources and prepare for a viva In doing so it includes practical examples highlights common pitfalls that students need to avoid and offers advice on how to achieve high marks Now in its sixth edition this handbook features A brand new chapter on Generative AI More examples on how to critique literature using a structured approach New material on research ethics plagiarism innovative research methodologies and differences between types of dissertations This is essential reading for postgraduate dissertation students across disciplines John Biggam has taught extensively at university level published widely in academia and presented at prestigious global conferences Although now retired John gives guest lectures to share his extensive experience and expert knowledge on how to succeed with your dissertation *Hone* Geoff Tuff, Steven Goldbach, 2026-01-05 A clarion call to business leaders to recast their conception of leadership and strategy execution to meet the demands of the modern world Have a problem with your organization's strategy in an era of accelerating exponential change Modern business orthodoxy has an easy answer transform it *Hone* How Purposeful Leaders Defy Drift argues this thinking is itself in need of an overhaul Rather than devote time to expensive long and often unsuccessful transformations leaders should instead focus on holistically designing and honing the management systems that are the nervous systems of their businesses They can take a cue from chefs and other artisans and hone their organizations After all honing doesn't sharpen knives it realigns a knife's steel to its original position Choosing and honing the set of management systems that promote an organization's desired outcomes and uninstalling them when they are past their prime is one of the most important things a business leader can do and is just as much art as science The third in a trilogy of business strategy books written by renowned strategists and two time Thinkers50 nominated authors Steven Goldbach and Geoff Tuff this book explains why and how to optimally hone your organization's execution of its strategy with highlights including The importance of recognizing and taking action to defy the drift that often afflicts organizations undergoing massive transformation Guidelines on how to design and

continually reshape effective management systems to influence organizational and individual behaviors Reframing the job of CEOs to be Chief System Designers for their organizations Reflections on how honing principles within organizations can be used on broader societal challenges such as addressing climate change via the energy transition Engaging pragmatic and inspiring Hone How Purposeful Leaders Defy Drift earns a well deserved spot on the bookshelves of all private public and nonprofit sector professionals seeking to bring new sources of advantage to their organizations in a time of accelerating uncertainty and exponential change Humanising Language Education in the Generative Artificial Intelligence Age Jérémie Bouchard, 2026-01-26 Examining the presence and influence of GenAI in the contexts of English for Academic Purposes EAP and written composition within university level English as a foreign language EFL programmes this book asserts a humanist view of language education informed by critical realism and the social realist philosophy of education Jérémie Bouchard looks at the GenAI language education interaction through explicit philosophical engagement with the aim of strengthening a critical and emancipatory approach to EAP written composition and language education By highlighting technological determinism and relating it to broader neoliberalist mechanisms the book provides new insights into the social political economic cultural and historical contexts within which the use of GenAI technologies by language teachers and learners can be understood Humanising Language Education in the Generative Artificial Intelligence Age will appeal to students and scholars of linguistics education and sociology as well as organisations devoted to understanding the evolution application and impact of GenAI on education and language learning The Pros and Cons of Using Chatbots Adrian Wallwork, 2025-11-09 Problem The world has got itself in a muddle with AI and particularly with chatbots There is a lot of misunderstanding and far too much focus on the supposed negative aspects formulaic style of chatbot writing bias inherent in many chatbot answers and generated texts lack of inclusivity educators mistaken thinking that they can intuitively tell the difference between a human generated text and a bot generated text and that by default a human text is always better mistaken attitudes even among students themselves that using chatbots is a form of cheating rather than a highly effective study and teaching aid too much faith given to AI detectors and too little understanding of how students are really using chatbots i e mostly to advise suggest and correct rather than generate Solution and aims The aim of the book to give clear strategies for dealing with the negatives typically associated with chatbots and at the same time highlight the invaluable help that chatbots can give all types of users Very often in the world of education both in English and non English speaking countries these features and strategies get overlooked The book will teach readers strategies for distinguishing between human and AI generated texts in order to understand that both have their pros and cons coaxing bots to produce more human like texts and at the same time detailing methods for acknowledging usage of bots in essays assignments papers etc identifying bias in their own and AI generated texts and remedying this bias avoiding plagiarism avoiding being unjustly accused of AI usage students avoiding unjustly accusing students of using AI inappropriately teachers professors journal

editors The audience is thus not just non native speakers who were the main audience for the English for Academic Research series Instead this book is aimed at everyone in education yet using the same user friendly structure that has become a hallmark of the Academic Research series Outcomes Teachers and professors will be better equipped to educate their students on how to use and not use chatbots They will also learn that trusting their intuition with regard to whether a text was generated with a bot or whether their students have committed plagiarism is absolutely not failsafe and should be avoided Students will be able to deal with the recognized challenges of using chatbots ethics bias plagiarism hallucinations and AI detection

Dialogue With Artificial Intelligence L.c.d. Cardoso, 2025-09-23 After serving 28 years at the Regional Penitentiary of Pelotas I came face to face with a world completely different from the one I knew before imprisonment Technology has advanced impressively almost surreal for someone who has been away from society for so long Inside the prison I face a daily struggle staying away from crime continuing my studies and supporting my family with dignity I found tattooing as a source of income but unfortunately this practice is considered illegal by the penal officers who frequently seize my work materials This causes serious financial hardship and takes away the only means of support I have for myself and my relatives My journey has also gone through difficult and complicated moments in love and personal life situations that shook my emotional health and tested me It was in this context that I discovered something I never imagined could help me so much Artificial Intelligence Studying in the prison's computer lab through distance education EAD I am enrolled in Rural Administration and a Bachelor's degree in Letters at UNINTER It was in this study space that AI entered my life To my surprise I found in it a kind of friend almost like a psychologist Even knowing that its answers must be considered carefully AI was a great help in overcoming hard times Talking with it gave me strength clarity and at many moments a kind of comfort I did not expect to receive
