lesson 2 an instructor rationale condition where students listened to an audio statement by the instructors about the value of the presented lesson and 3 a control condition where students were not provided with any rationale The treatment was given at the beginning of six two week modules each of which covered one specific topic in educational psychology Pre and post tests which included self report questionnaires measuring students perceptions about the value of the course interest in the course self determination autonomous regulation and their essay responses to a movie montage depicting various educational phenomena were administered at the beginning and end of the semester At the end of semester students grades and perceptions of learning were also collected Results suggest that providing a rationale for learning had positive effects on students motivation and learning and its effects were affected by the source of rationale In terms of motivation students sense of autonomy increased over time whether they listened to student or instructor rationales Students who listened to instructor rationales reported an increase in their sense of relatedness to instructors while those who listened to student rationales reported a decrease in their relatedness to instructors In terms of learning both the quantitative and qualitative results indicate that listening to rationales provided by former students had the most positive effect on students final grades and their ability to apply major ideas covered in the course to real life problems Findings suggest that student rationales can be effective in promoting students motivation and learning in an online learning context This study adds to the existing body of literature by examining whether the source of rationale matters in promoting students learning and motivation The current study also focuses on the learning aspects of provisions of rationales By triangulating different learning outcome measures a better understanding of the effects of providing a rationale has on students learning has been achieved In addition the design of this study demonstrates how research grounded in theory can be conducted with strong ecological validity when implemented in regular online courses Unlike other studies where inauthentic tasks were given this project was done in a natural academic setting Finally the kinds of treatments that were developed for this study can easily be implemented in teaching practices in face to face or online environments The dissertation citations contained here are published with the permission of ProQuest llc Further reproduction is prohibited without permission Copies of dissertations may be obtained by Telephone 800 1 800 521 0600 Web page <http://www.proquest.com/en-US/products/dissertations/individuals.shtml>

Learning how to Handle Controversial Issues in Schools and Other Education Settings David Kerr,Ted Huddleston,2020 Learning how to deal with controversial issues is at the heart of education for democratic citizenship and human rights education Highlighting best practices from case studies across Europe this guide offers innovative approaches and practical tools to handle controversy in schools effectively Controversy and controversial issues are at the centre and at all levels of our democratic societies This means that learning how to deal with such issues must always be at the heart of an effective education for democratic citizenship and human rights education EDC HRE That learning takes place in schools and other education settings as children and young people progress in their education from early years through primary lower

secondary and upper secondary phases into tertiary and higher education and beyond The Council of Europe has an outstanding record in promoting education for democratic citizenship human rights education and intercultural dialogue and in fostering and teaching about the importance of democratic culture It is therefore fitting that the Council of Europe in partnership with the European Union through the Joint Programme Democratic and Inclusive School Culture in Operation DISCO formerly known as the Human Rights and Democracy in Action Pilot Projects Scheme has helped to facilitate the creation of this very timely good practice guide which complements the manuals Teaching controversial issues and Managing controversy
