**AI for the Rest of Us** Sairam Sundaresan, 2025-10-30 A joyfully lucid unravelling of AI full of aha moments mind bending analogies and charming doodles that demystifies how these newfangled thinking machines actually learn and are already quietly reshaping our world In *AI For the Rest of Us* Sairam Sundaresan reveals AI's true nature not cyborg sci fi overlords but clever tricks surprising simplicity and the human creativity teaching computers to well think Understanding arrives in the form of playful puzzles why AI sees your pooch as a pastry witty explanations and charming drawings from a guide passionate that AI's core ideas are for everyone Sundaresan helps you see AI's smarts unfold by showing how a robot eventually learns a dance how it finds logic in king man woman queen or even cooks up faces so lifelike you might recognize them His signature doodles illuminate ideas transforming baffling complexity into moments of pure delightful clarity From first building blocks to modern marvels like AI that chats creates art or decides what you buy this book is your exhilarating ticket to understanding the AI age

**Not My Barista** Rachelle Ayala, 2024-03-04 The cute barista is a wannabe writer and Gina Griffin doesn't date wannabe writers She's a bestselling women's fiction author and doesn't need to take a clueless beginner under her wing especially a handsome one who's so awkward with words that she finds endearing But Henry Archer is no ordinary barista He's a tech billionaire in disguise and the mastermind behind an AI chatbot designed to write like humans Henry is captivated by Gina's talent and determined to learn from her What Gina doesn't know is that he's also using her word choices to fine tune the very technology that she fears might render her craft obsolete As they grow closer Henry finds himself in a moral quandary torn between his growing feelings for Gina and the innovative technology that could change the writing industry forever Gina in turn is drawn to the charming barista with a passion for words warning him against using AI and teaching him to write from the heart Love is the last thing either one of them expects As Gina grows curious about Henry's identity and Henry frets over his newest breakthrough a hidden enemy forces his hand Will the exploding truth destroy Henry and Gina's budding romance or inspire the greatest love story ever written

**The Lakes of Southern Hollow** Steve Yates, 2024-07-16 Casey Tyndall and Devon kids from Southern Hollow subdivision have been falling in and out of love with each other and always at the wrong time It's a Thursday night in September 2019 their senior year Anything seems possible And Casey's band New Wave Vultures packs them in on teen night at the Cedar Shake a club on the square in downtown Springfield Missouri While all three feel trapped in the Ozarks the coming pandemic is about to show them the grinding limits of true confinement and the power of music love friendship and courage

**Four Battlegrounds** Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and

cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies to show the chilling synergy between China s government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

**The Almighty Machine** Pekka Vahvanen,2022-02-25 The hymn of Digitalization is nothing new We must encourage the creation of new apps We must develop AI in order to prevail among international competition Technology s advance will halt climate change and let robots do the dumb stuff for us Our faith in technology is powerful because it has saved us in the past The Almighty Machine shows us technology s flip side The things that once powered us toward a brighter tomorrow are already undermining our quality of life The data stream has shattered our concentration human relationships have been reduced to a menu of emojis constant surveillance has nullified much of our privacy and the development of AI could be the beginning of the end for us We are becoming the casualties of our own success Pekka Vahvanen s bristling and timely critique deftly translated by Mark Jones throws doubt on the necessity of technological development in a world saturated in tech The Almighty Machine presents an important question Does progress no longer make us happier

**The De Gruyter Handbook of Automated Futures** Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer

With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation Handbook of Research on Digital Citizenship and Management During Crises Öngün, Erdem, Pembecioğlu, Nilüfer, Gündüz, Uğur, 2021-11-12

Today individuals and societies of the digital age are no longer constrained by conventional contexts narratives settings and status they are surrounded and guided by digital tools and applications leading to a digital revolution That digital revolution changed the individual along with living styles and cultural and social relations among people Moreover these revolutionary changes and the increasing capabilities of smart devices have brought today s people a new kind of public sphere with questionable freedoms but also restraints in its digital dimensions Now it is possible to talk about the digital dimension and equivalence of all the concepts that are both individually and socially constructed in a new digital world The Handbook of Research on Digital Citizenship and Management During Crises covers many different components engaged with digital world responsibilities The authors assess the position status and reactions of the new citizen against future catastrophes Covering topics such as epistemic divide internet addiction and new media technologies this text serves as a cutting edge resource for researchers scholars lawmakers trainers instructional designers university libraries professors students and academicians The Wire ,2000
