Wallbank, 2025-11-28 The number of students with specific learning difficulties entering higher education has increased dramatically over the last decade yet academic support for these students is often insufficient This innovative book will equip teaching staff with the tools to support these students with learning and assessment arming them with the skills they need to excel in higher education Combining a scholarly rationale for inclusive pedagogies with practical strategies for busy practitioners the book uses accessible and meaningful inclusive techniques based on the principles of Universal Design for Learning UDL the theory of Complementary Cognition and the author's own principles of compositional pictography to show how educators can harness students differing cognitive strengths and help them to use them to their own advantage The book demonstrates how the challenges associated with learning differences are manifested in student writing and assessment with chapters covering such topics as How to scaffold support to develop the areas students find challenging How to deploy metaphorical and visual pedagogies to develop approaches to studying and writing How to make assessment design more inclusive Presenting an inclusive practical and research informed pedagogical approach to the teaching of academic writing this practical guide is an essential read for anyone supporting higher education students with assessment including tutors lecturers learning developers and disability advisors      Artificial Intelligence, Pedagogy and Academic Integrity Alyson E. King, 2025-07-01

This book addresses the implications of artificial intelligence for teaching learning and academic integrity in higher education It explores policies about the use of Generative Artificial Intelligence GenAI describes how to teach writing in the era of GenAI and how instructors can design courses and assessments that prevent plagiarism while building the necessary skills for critical thinking and writing Together the chapters include research results case studies teaching methodologies course design ideas analysis of power and gatekeeping and best practices related to GAI from a diverse range of researchers from English and French Canada the United States England Ukraine and Croatia The authors approach the advent and rapid spread of GenAI in higher education by examining its use from different perspectives with a particular focus on its impact on academic integrity Taking a communication studies approach consideration is given to the role GenAI might play disrupting power structures in universities to improve access for students who are non traditional or English Language Learners The

book also explores how reimagining teaching methodologies can help to mitigate academic integrity violations due to misuse of GenAI and to teach students to use GenAI with integrity as a research and brainstorming tool. Students need to learn how to assess the reliability of GenAI's output as they develop the skills for research and writing. Methods of teaching writing and research skills using GenAI are explored in an effort to ensure that critical thinking skills are developed successfully. Most instructors who use writing intensive assessments believe that essential critical thinking skills are developed via the writing process; often ideas become concrete as one writes about them. Teaching with GenAI can provide opportunities for instructors to guide their students into a deeper analysis and critique of their research.
