*Healthcare Transformation using Artificial Intelligence* Robert JT Morris, 2025-07-25 Healthcare Transformation Using Artificial Intelligence provides insights into executing healthcare transformation through AI and deploying health technology at scale. It focuses on improving patient outcomes while managing costs, highlighting selected use of AI and contrasting it with a tech push approach. Through interactions with leading clinicians and healthcare administrators, this book presents the most urgent challenges facing patients such as lifestyle, self-empowerment, adherence, knowledge, and behavior change, and clinicians including information overload, time scarcity, rapidly changing guidelines, care quality, and administrative burdens. The book explains recent AI breakthroughs and critically evaluates their promise, showing how AI can be successfully deployed to address these challenges. Real deployments, scaling, and evidence gathering illustrate the best bets for AI in healthcare. Innovation is moving fast, but patient safety, clinical trials, and regulatory approvals ensure appropriate adoption. This resource is valuable for health professionals, scientists, researchers, practitioners, and students wishing to expand their knowledge in this field. Chronicles the healthcare system's problems along with the most promising transformational AI techniques that can be used. Describes data science and AI technologies and why or when they work, including examples and references. Gives simple and understandable descriptions in each application area of how the technologies actually work. Includes examples and case studies of applying AI to achieve better patient outcomes while lowering costs. Intelligent Systems for Rehabilitation Engineering Roshani Raut, Pranav Pathak, Sandeep Kautish, Pradeep N., 2022-01-05 INTELLIGENT SYSTEMS FOR REHABILITATION ENGINEERING Encapsulates different case studies where technology can be used as assistive technology for the physically challenged, visually and hearing impaired.
