The Space of the World Nick Couldry, 2024-09-17 Over the past thirty years humanity has made a huge mistake We handed over to big tech decisions that have allowed them to build what has become our space of the world the highly artificial space of social media platforms where much of our social life now unfolds This has proved reckless and has huge social consequences The toxic effects on social life young people s mental health and political solidarity are well known but the key factor underlying all this has been missed the fact that humanity allowed business to construct our space of the world at all and then exploit it for profit In the process we ignored two millennia of political thought about the conditions under which a healthy or even a non violent politics is possible We endangered the one resource that is in desperately short supply in the face of catastrophic climate change solidarity Is human solidarity possible in a world of continuous digital connection

and commercially managed platforms and what if it isn't In the first book of his trilogy *Humanising the Future* Nick Couldry offers a radical new vision of how to design our digital spaces so that they build rather than erode both solidarity and community This trenchant and vividly written book stresses that we cannot afford not to care for our space of the world We need to rebuild it together

The Valleys Did Not Break Us Daniel Grose, 2024-02-26

The idea for this story came out of a viral Instagram Reel I made about how moms are often so consumed with the needs of their families that they have no space to even think their own thoughts anymore. The video was an encouragement to husbands to step up and share in more of the household work and to see themselves as guardians of their wife's personhood. I had reels that had a few thousand views; this video went to 4 million views in under 2 weeks. The responses were overwhelming. It was a video addressed to men but it resonated with literally millions of women. I got comments like "My marriage wouldn't have ended if my husband done this. I'm crying because you said what I've been feeling so long but never found words to say. How can I talk to my husband about this?" There is much more to say on the topic than can even be said in a book, let alone a 1-minute Instagram video. The purpose of this story is to help people start having the conversation. That has to be the first step. It was heartbreakingly clear that there is an aloneness that many women feel but have no place to start from to address it. That is why I wrote this story. It is for husbands and wives to read together to start having this conversation and create a shift towards healing and balance in their marriage. There are things on both sides of the table that are hard to say and extremely hard to hear. While it was women who commented on the reel, this story is written by a man and so also addresses the heart of men who feel alone inside their marriage. My hope is that by hearing it through the lives of David and Janie, it will be easier to hear without being offending or getting defensive. My hope is that this book will be a gateway towards empathy.
