It isn't just customers that build up an emotional attachment to specific brands either employees of certain companies are well known for being overly committed to their corporate overlords making it possible for strong loyalties to rise to the point that they even come with a sense of ownership as well. This can be an effective tool when it comes to increasing sales as well as maintaining employee motivation. It can also cause problems as your company grows however if those who feel they are stakeholders do not feel they were properly consulted when it came to planning out the future of the company.
