Mathematics and Education in an AI Era Dragana Martinovic, Marcel Danesi, 2025-04-25. This book focuses on the potential contributions of Artificial Intelligence AI for enhancing mathematics education. It includes rationales for an AI oriented pedagogical model such as interdisciplinarity and even sensitivity to crucial world issues such as climate change. The chapters in this book highlight what the new age of mathematics education entails concretely covering themes from the utilization of AI directly into classroom pedagogy and the semiotic consequences of what this entails to how mathematics training can be tailored to get students to relate concretely to problems of climate change and to understand the relevance of the differences between symmetry and asymmetry as psychological constructs. The overall picture we can glean from these chapters is not mere eclecticism but an integration of disciplinary perspectives into a holistic framework that has great relevance and resonance.

for mathematics education in the age of AI *Learning to Flourish in the Age of AI* Stephen M. Kosslyn, 2024-12-11 This timely book affirms that humans can flourish in the Age of AI by relying on their distinctive strengths and explores the skills and knowledge that are required to interact effectively efficiently and responsibly with AIs both today and in the future In Part I this book develops the Cognitive Amplifier Loop which allows humans to use AI to build on their cognitive and emotional strengths and manage their limitations Kosslyn discusses ways to employ this loop to offload tasks to AI and to utilize it to train us effectively and efficiently as well as how to use it to both learn and engage in critical thinking creative problem solving and manage cognitive and emotional constraints Part II establishes how to draw on the Cognitive Amplifier Loop to help us improve our human relationships addressing emotional intelligence effective communication leadership followership and collaboration skills Finally Part III builds on previous chapters to consider how to interact with AIs to help each of us learn and grow Throughout the book Kosslyn provides practical strategies and AI assisted exercises to help readers develop these essential skills and knowledge Kosslyn argues that by cultivating distinctively human capabilities we can not only coexist with AI but flourish in an AI infused world This book is a must read for anyone involved with AI education or Learning and Development in industry It will also appeal to anyone studying thinking and decision making AI and psychology and the use of technology in the classroom
