He introduces the idea that embracing and driving engagement throughout organizations and using it with customers prospects employees and partners is what will set companies apart. This digital era demands that marketers understand the science of marketing in order to scale and succeed. But if we embrace mathematics alone while abandoning feeling meaning and authenticity we will fail to deliver on the desires of our clients to feel listened to and understood. So how do we win the heart and mind of the buyer in this new world? Develop a real strategy around engagement by practicing these simple steps: listen learn and engage.
