## **Complete Ai Productivity Tools For Gen Z:**

**Fashion Management** Rosemary Varley, Ana Roncha, Natascha Radclyffe-Thomas, Liz Gee, 2024-11-14 The 2nd edition of this market leading text solidifies the book's place as the go to guide for students studying the business of fashion. With its truly international approach and host of pedagogical features including abstracts from key Bloomsbury Fashion Business Cases in each chapter it is the perfect resource for getting to grips with the breadth of issues and concerns facing fashion organizations today. Covering prominent brands such as Prada, Glossier, Nike and ASOS as well as SMEs like Elvis and Kresse, this text not only prepares readers for academic success but also for the diversity of the real world fashion industry. The 2nd edition of Fashion Management includes a new chapter on Managing Routes to Fashion Markets reflecting the growing precedence of digitalization and omnichannel retailing in the contemporary fashion industry. A new chapter on Fashion Law highlighting the importance of recognizing and responding to legal issues such as intellectual property law, data protection, consumer law and influencer culture. Substantial new material on ethics, sustainability and Corporate Social Responsibility (CSR), an understanding of which is vital as calls for transparency in the fashion industry continue to grow. This is an ideal textbook for those studying on undergraduate and postgraduate degree courses in fashion management and fashion marketing. The book is also an important supplementary resource for courses in marketing, retailing and business studies.
