# How To Do Affiliate Marketing – Step by Step

## STEP 1: Create an online presence and niche.

Before promoting products, you must have a platform and create online content, such as social media posts and/or a blog. Selecting a niche allows you to focus on one specific market and better target your audience.

## STEP 2: Research how you stand out from your competitors.

This process will help you figure out what your competitors are doing and how you can stand out. It can also help you determine which products to promote and which niche to work with.

## STEP 3: Find the best platform.

Platforms such as websites and YouTube channels are ideal for growing an audience and promoting your brand. However, if you're looking to grow your business, you should consider using a variety of platforms.

## STEP 4: Discover which affiliate network gives you the most returns.

Assess these factors before choosing an affiliate network: cookie duration, competition, the network and the merchant's reputation, brand alignment, fees, and the level of support.

## STEP 5: Decide on what to promote.

The products you choose must align with your brand and values. Promoting a product you're already using and one you would highly recommend to others is best if you're just starting.

## STEP 6: Optimize your site's content.

When you create valuable and informative content, you help your audience and position yourself as an authority in your field. High-quality content can help you rank higher on search engine results pages (SERPs). The more traffic you get, the more chances you have of making a sale.

**Affiliate Marketing For Beginners** Tim Murphy,2020-12-29 If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was he or she would likely claim that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business owners can ask their customers how they came to know about them in an effort to learn about their client base but they cannot get as much information as they would be using online tracking The growing online market has made this type of marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual
