The Three C's: Communication, Customer Service, & Chatbots I. Edmondson, 2024-01-05 The world that our forefathers knew no longer exists and the world in which most of us grew up is no longer here either Science has taken us into a new world in which humans and their activities are now augmented by robots that can perform many of the functions that were previously believed to be only possible for humans to perform The total impact of these changes is as yet unknown but we do know that every facet of human existence has been and will continue to be impacted There are many who fear for the future of mankind while others see possibilities for changes that will improve all facets of our lives The one thing we do know life will never be the same again

Blockchain and Artificial Intelligence Tom James, 2021-08-23 Blockchain and artificial intelligence are perhaps the two most significant disruptive technologies this century and both will significantly rewire the world of global financial markets and the world in which we live While blockchain offers a number of significant advantages over traditional forms of finance including lower cost and massive increases in operational efficiencies of traded markets property records and a whole host of transaction processes artificial intelligence is moving fast from basic structured machine learning doing menial yet important big data tasks like credit card fraud detection to predictive analysis and real time real world risk management and investment decision making There is still a lot of confusion in the market about cryptocurrencies bitcoin and the underlying blockchain technology Blockchain and Artificial Intelligence highlights the underlying technologies of blockchain and the differences between cryptocurrencies and blockchain financial applications It explores the current AI offerings and gives a vision of the fast moving developments in this area including the many solutions that are expected to revolutionize the way financial and commodity markets will operate in the future
