Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their

business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks

How To Make Money On Upwork As A Freelance Janita McKercher, 2021-07-28 As the entire world becomes more and more connected with great internet access the need for people to hire local staff is significantly shrinking With this increased connectivity remote team organization has never been easier Likewise companies realize that remote workers are more productive and less expensive And Upwork is a marketplace that connects businesses with freelancers around the world for short or long term jobs If you have an interest in starting freelancing or working remotely this book will help you do that This book will be interesting for next people Professionals who want to start working online from any country of the world and receive the same salary as if they worked in the USA Students office employees young parents and other people who don't have a lot of time and want to find a side part time job People who don't have any special skills for online work but want to learn something new It is possible to start freelancing from data entry jobs Freelancers who have already worked on Upwork and want to learn other experience in order to improve the profile job applications increase earnings
