Good Intentions Are Not Enough: Why We Fail At Helping Others Robin Boon Peng Low, 2016-10-18 Disaster strikes transforming cities and towns into graveyards and wastelands in a

matter of minutes But help is on its way news channels and social media relay the information to all corners of the globe in real time mobilising hundreds of people and organisations to aid Yet with standard relief packages regardless of the location and a lack of effort taken to match volunteers skills with tasks just how effective are we at helping others Many people want to do good but they like to do it at their convenience These attempts at helping often fail and the blame invariably falls on the disaster victims rather than looking at the suitability of aid provided Such help offered without a thorough understanding of the context or the impact of actions can create situations that leave the victims worse off than before So how can we create real sustainable impact Most communities have a lot of unused human capacity When offering help many aid providers fail to engage the local communities thus excluding a critical group of people with the knowledge of local ways and needs This book elaborates on a simple principle essential to effective aid Never Help Engage Enable Empower and Connect It is important that we fully understand the problem before we try to solve it and who better to help us with solutions than the local community

Youtube Mastery Marketing Robert Grow,2020-10-16 Many people have discovered creative methods to earn money using the internet A money making technique that is currently popular today is the monetization of YouTube channels Whether you are a musician who wants to get some attention from music fans all over the world or a business owner who is establishing a video library for the products that you are selling

monetizing your YouTube account is a great way to build a reliable income provided you do it correctly There is a lot of misconception about YouTube as a social media platform Because of the ease with which users can update and create their own content it often seems like less of a social media network and more of a personal page But just because you can use Facebook Twitter and the like to promote your video doesn't mean that YouTube isn't a viable social media platform In fact YouTube can be seen as the heart of the social media platforms as its content is widely distributed throughout the other platforms In fact 400 tweets per minute contain a YouTube link and YouTube's search bar is the second only after Google YouTube has the benefit of having one of the most engaged audiences out of the social media platforms With tweets flooding Twitter news feeds and posts cluttering Facebook feeds it's harder than ever to reach followers on platforms However 85% of YouTube subscribers consider themselves regular YouTube users It's recommended that if you do pursue creating a YouTube channel that you have a professional team of producers and creators as the content uploaded should maintain a high standard However a lot of big Youtubers have started with just their mobile phone and a personality Now video content and a strong YouTube presence can be significantly harder to establish than say Twitter Facebook or Instagram But if video content were right for your brand it would be well worth the extra step As YouTube is free to set up and easy all you need is your Gmail address and you're set the company makes its massive profits from ads While they are reserved for those top budget players YouTube still has certain issues with the ads as they are considered a form of interruption messaging i.e. not organic content that is so highly favored on other social media platforms Essentially the paid ads are disrupting viewers from what they are doing on the site And with the ease of the Skip Now button the ads have a high chance of not being viewed if they are not properly targeted This guide will focus on the following Features and impact of YouTube YouTube tools to help you target viewers Creating great YouTube content How the YouTube algorithm works How to get more YouTube subscribers Making your videos Bringing in the traffic Picking a profitable niche and keyword research SEO YouTube channel goals you can control AND MORE
