language English abstract What will happen if there aren't enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany's 100% remote job market In a fast changing world digital transformation has become an inevitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks Working Mother, 2006-06 The magazine that helps career moms balance their personal and professional lives *Working Mother*, 2006-06 The magazine that helps career moms balance their personal and professional lives *The Big Book of Jobs* VGM Career Books (Firm), 2002 Provides advice on choosing and preparing for different careers and covers job descriptions employment trends training and salaries **The Big Book of Jobs** Barbara Spencer Hawk, 1997 Whether you're looking for advice on how to ace a job interview or you need the latest outlooks and statistics on more than 250 careers the Big Book of Jobs is your one essential guide to on the job success This single volume includes all of the most up to date career information available compiled by the United States Department of Labor's Bureau of Labor Statistics In addition to this information you'll find expert career advice from a professional career counselor and the editors of VGM Career Horizons America's foremost career books publisher The Bulletin of the Council of Civil Service Unions, 1989 **BIG BOOK OF JOBS**, 2009-2010 McGraw-Hill Editors, 2008-09-23 Comprehensive up to the minute information on top jobs and job search techniques from the
