Artificial Intelligence Safety and Security Roman V. Yampolskiy,2018-07-27 The history of robotics and artificial intelligence in many ways is also the history of humanity s attempts to control such technologies From the Golem of Prague to the military robots of modernity the debate continues as to what degree of independence such entities should have and how to make sure that they do not turn on us its inventors Numerous recent advancements in all aspects of research development and deployment of intelligent systems are well publicized but safety and security issues related to AI are rarely addressed This book is proposed to mitigate this fundamental problem It is comprised of chapters from leading AI Safety researchers addressing different aspects of the AI control problem as it relates to the development of safe and secure artificial intelligence The book is the first edited volume dedicated to addressing challenges of constructing safe and secure advanced machine intelligence The chapters vary in length and technical content from broad interest opinion essays to highly formalized algorithmic approaches to specific problems All chapters are self contained and could be read in any order or skipped without a loss of comprehension

Medium Hot Hito Steyerl, 2025-06-10 WHAT IS THE FUTURE OF THE IMAGE IN THE AGE OF CLIMATE CHANGE AND ARTIFICIAL INTELLIGENCE Hito Steyerl is one of the most celebrated artists of our time Her work both as an artist and a writer has consistently challenged the political boundaries between art and technology In this new collection of groundbreaking essays she explores how AI the use of large language models and the algorithmic creation of imagery transform our understanding of the world She argues that such practices cannot be divorced from the economic and political conditions of the times *Medium Hot* is a collection of scintillating meditations on the limits of art and technology the essential handbook for the present conjuncture The pieces here probe the manufacture and distribution of images in the age of AI and climate change She asks whether art can be made not only by machines but for machines She argues against the production of images that heat up the planet disfranchise workers and fuel the arms trade and questions whether such creations can even be called art In an era of such rapid change Steyerl does vital work investigating whether machine learning will infiltrate every aspect of our lives and what that means for the future
