*The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics* Malam Wasai, 2023-09-18. Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics. Language: English. Abstract: Greater scrutiny is necessary because AI will have a significant impact on international relations, such as putting new topics on the international agenda, challenging geostrategic relations, serving as a tool for diplomats and negotiators, and creating new opportunities and concerns about protecting human rights. Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis: individual, state, and international. State-level analysis examines the foreign policy behavior of states in terms of state characteristics. For example, some scholars say that
