EMOOCs 2023. The pandemic is fortunately over. It has once again shown how important digital education is. How well prepared a country was could be seen in our schools, universities, and companies. In different countries, the problems manifested themselves differently. The measures and approaches to solving the problems varied accordingly. Digital education, whether micro-credentials, MOOCs, blended learning,

formats or other e learning tools received a major boost EMOOCs 2023 focusses on the effects of this emergency situation How has it affected the development and delivery of MOOCs and other e learning offerings all over Europe Which projects can serve as models for successful digital learning and teaching Which roles can MOOCs and micro credentials bear in the current business transformation Is there a backlash to the routine we knew from pre Corona times Or have many things become firmly established in the meantime e g remote work hybrid conferences etc Furthermore EMOOCs 2023 has a closer look at the development and formalization of digital learning Micro credentials are just the starting point Further steps in this direction would be complete online study programs or full online universities Another main topic is the networking of learning offers and the standardization of formats and metadata Examples of fruitful cooperations are the MOOChub the European MOOC Consortium and the Common Micro Credential Framework The learnings derived from practical experience and research are explored in EMOOCs 2023 in four tracks and additional workshops covering various aspects of this field In this publication we present papers from the conference s Research Experience Track the Business Track and the International Track
