problem it's the outdated neoliberal version we've been practicing that's failing us. From the rise of populism to the growing disillusionment among younger generations, the signs of strain are everywhere. But Levine and MacBride reveal how a new consensus, what they call Dynamic Capitalism, is already taking shape: one that balances profit with purpose, empowers the middle class, and addresses the urgent challenges of inequality and climate change. Through compelling stories of leaders like Jamie Dimon, Dan Schulman, Lisa Green, and Larry Fink, *Capital Evolution* shows how businesses, governments, and individuals can work together to create an economy that works for everyone. This book is a call to action for pragmatic leaders, policymakers, and citizens alike to embrace change, rebuild trust, and ensure capitalism remains the most dynamic force for progress the world has ever known. The future of capitalism isn't a choice between old ideologies; it's about evolving to meet the needs of a new era. *Capital Evolution* is a compelling look at the changes taking hold in America's political system, information environment, and society, asking tough questions about the rising power of businesses in our economic system. Drawing on dozens of interviews with CEOs, academics, employees, and thought leaders, venture capitalist and author Seth Levine and journalist Elizabeth MacBride boldly challenge readers to take a hard look at our divisions and their impact on American economic supremacy.
