Rachel Maguire, 2025-05-01 This book explores the relationship between copyright law online anonymity and creative user generated content CUGC Presenting original empirical findings the book evaluates the co existence of copyright law and normative systems regulating a CUGC landscape made up of artists photographers and writers and makes novel recommendations for copyright reform It takes a multi jurisdictional approach across Anglo American and EU legal systems using the UK USA and Germany as representative jurisdictions for legal analysis Qualitative findings are drawn from creators and communities on Reddit and 4chan Copyright subsists in much CUGC but pervasive anonymity makes it difficult for the law to regulate it effectively Simultaneously anonymity offers creative benefits in a way that highlights flaws in traditional justifications of copyright Comparisons between community norms and copyright law identify practical differences but also fundamental compatibilities in terms of ownership expectations However the simultaneous existence of legal and normative enforcement mechanisms complicates matters for creators and potential users with negative implications for creativity and copyright law While existing reform efforts have made suggestions to create a UGC exception these overlook and undermine the role of CUGC creators as copyright holders This can be addressed through the consideration of a framework of supplementary CUGC guidelines when developing such reforms This valuable resource for researchers and students provides a distinct perspective in framing CUGC creators as copyright holders examining online anonymity as a pivotal factor influencing regulation [Online Journalism](#) Steve Hill, Paul Lashmar, 2013-12-10 An essential guide for anyone hungry to learn how journalism should be practised today and will be tomorrow Hill and Lashmar encapsulate the transformative impact technology is having on journalism but anchor those changes in the basic principles of reporting Paul Lewis The Guardian As the news business transforms Online Journalism is a fantastic new resource for both students and lecturers Informative straightforward and easily digested it s a one stop shop for the skills knowledge principles and mindset required for journalistic success in the digital age Mary Braid Kingston University Online and social media have become indispensable tools for journalists but you still have to know how to find and tell a great story To be a journalist today you must have not only the practical skills to work with new technologies but also the understanding of how and why journalism has changed Combining theory and practice Online Journalism The Essential Guide will take you through the classic skills of investigating writing and reporting as you master the new environments of mobile on demand social participatory and entrepreneurial
