- 1 The majority of abused elderly cannot care for themselves.
- 2 The abuser was experiencing stress. Often the elderly victims and the care they required were identified as the source of stress.
- 3 Violence begets violence. It's banked throughout life and spent on the person who has the least power over us. Sometimes violence continues from generation to generation as the normative response to stress.
- 4 Most older individuals are not abandoned by their children. Seventy-five percent of the elderly live with these children or live less than 30 minutes away. Eighty percent of home care to the aged is provided by family members living in the same household.
