The Rise of the Algorithms

John M. Jordan, 2024-03-19 The meteoric rise of online video is reshaping the competition for human attention The Rise of the Algorithms argues that this new technology has changed the way we interact with others our relationships with public institutions and our very own behaviors and psyches In tracing the origins and evolution of online video John M Jordan examines the mechanics and the ethical stakes of online video platforms especially YouTube and TikTok but also others such as Twitch Tracing the use of algorithms pioneered by Facebook and Google and so successfully exploited by TikTok s corporate parent ByteDance Jordan shows how these platforms now engineer human behavior with consequences for culture politics and identity Jordan argues that we are at an inflection point Until now we have proved as a society ill prepared or unwilling to address such problems as the power of digital platforms the personal cost of viral celebrity the invasion of privacy and the proliferation of disinformation The Rise of the Algorithms combines this urgent assessment with a clear eyed discussion of present challenges and recommendations for reclaiming our online futures A valuable resource for understanding the transformations that have been and will be brought by YouTube TikTok and similar platforms Jordan s timely book is a vital work for anyone who uses the internet and especially for policy makers technologists communication and media specialists and researchers who have a direct hand in determining the future of our online world

The Robots Are Coming!

Andres Oppenheimer, 2019-04-30 Staying true to his trademark journalistic approach Andr s Oppenheimer takes his readers on yet another journey this time across the globe in a thought provoking search to understand what the future holds for today s jobs in the foreseeable age of automation The Robots Are Coming

centers around the issue of jobs and their future in the context of rapid automation and the growth of online products and services As two of Oppenheimer s interviewees both experts in technology and economics from Oxford University indicate forty seven percent of existing jobs are at risk of becoming automated or rendered obsolete by other technological changes in the next twenty years Oppenheimer examines current changes in several fields including the food business legal work banking and medicine speaking with experts in the field and citing articles and literature on automation in various areas of the workforce He contrasts the perspectives of techno optimists with those of techno negativists and generally attempts to find a middle ground between an alarmist vision of the future and one that is too uncritical A self described cautious optimist Oppenheimer believes that technology will not create massive unemployment but rather will drastically change what work looks like
