demonstrate how architecture can shape people's engagement with and understanding of urban space. This book contributes to a growing literature on atmosphere in relation to our experience of the built environment. In adopting this atmospheric perspective, the book speaks to the concerns of designers, users, and researchers interested in the way contemporary development infuses our cities with the experiential as a means of developing access, participation, and democracy. It explores the ways in which people experience a building held up against the claims, intentions, and assumptions that surround it. The book's focus on design, participation, and experience in relation to political ideals will appeal to architects, planners, and academics concerned with the production of space. Equally, its underlying atmospheric contribution and methodological approach will be of interest to designers, scholars, professionals, and students of atmosphere, affect, and architecture. city planners and urban developers, human geographies, anthropology, and urban studies.

Navigating the Metaverse Cathy Hackl, Dirk Lueth, Tommaso Di Bartolo, 2022-05-03. Jump into the metaverse to connect with consumers and explore endless opportunities. Like the Internet before it, the metaverse is a virtual space bringing people, companies, and products together in both digital and real environments to create new economic opportunities. The groundwork is already laid. People and organizations jumping in are gaining invaluable experience, meeting customers, developing revenue streams, and even shaping metaverse culture. In *Navigating the Metaverse: A Guide to Limitless Business Possibilities in a Web 3.0 World*, a team of Silicon Valley thought leaders delivers a groundbreaking discussion of how to find the right opportunities in this fast-moving universe. You'll explore everything from the metaverse basics to strategy to launching your first metaverse project. In the book, you'll find data and market analysis to erase any doubt that the metaverse is the next big thing. Foundational knowledge about the metaverse, metaverse economy, Web3 technology, and more. The essential connection between metaverse environments, businesses, community, and digital products that make the metaverse economy so powerful. A deep dive on non-fungible tokens (NFTs) and how to make the most of these assets. Frameworks to help find, nurture, measure, and capitalize on innovation in the metaverse. An essential breakdown of the next stage in online business. *Navigating the Metaverse* belongs in the libraries of entrepreneurs, executives, and innovators looking to lead in the new age of online business and commerce.

Choice, 1997. *Theatre for Women's Participation in Sustainable Development* Beth Osnes, 2013-11-26. Though development researchers have proven that the participation of women is necessary for effective sustainable development, development practitioners still largely lack culturally appropriate, gender-sensitive tools for including women, especially women living in poverty. Current tools used in the development approach often favour the skill set of the development practitioner and are a mismatch with the traditional gendered knowledge and skills many women who are living in poverty do have. This study explores three case studies from India, Ethiopia, and the Guatemala that have successfully used applied theatre for women's participation in sustainable development. This interdisciplinary book has the opportunity to be the first to bring together the theory, scholarship, and practice of theatre for women's participation in sustainable development in an

international context This work will be of great interest to scholars and practitioners in a wide variety of fields who are looking for creative solutions for utilizing the contributions of women for solving our global goals to live in a sustainable way on this one planet in a just and equitable manner *Subject Guide to Books in Print* ,2001 **CD-ROMs in Print** ,1998
