How Do You Hybrid Work Schedule For Us Audience:

Shakespeare and Digital Performance in Practice Erin Sullivan, 2022-10-18 Shakespeare and Digital Performance in Practice explores the impact of digital technologies on the theatrical performance of Shakespeare in the twenty first century both in terms of widening cultural access and developing new forms of artistry Through close analysis of dozens of productions both high profile and lesser known it examines the rise of live broadcasting and recording in the theatre the growing use of live video feeds and dynamic projections on the mainstream stage and experiments in born digital theatre making including social media virtual reality and video conferencing adaptations In doing so it argues that technologically adventurous performances of Shakespeare allow performers and audiences to test what they believe theatre to be as well as to reflect on what it means to be present with a work of art with others with oneself in an increasingly online world *The Routledge Companion to Musical Theatre* Laura MacDonald, Ryan Donovan, 2022-12-30 Global in scope and featuring thirty five chapters from more than fifty dance music and theatre scholars and practitioners The Routledge Companion to Musical Theatre introduces the fundamentals of musical theatre studies and highlights developing global trends in practice and scholarship Investigating the who what when where why and how of transnational musical theatre The Routledge Companion to Musical Theatre is a comprehensive guide for those studying the components of musical theatre its history practitioners audiences and agendas The Companion expands the study of musical theatre to include the ways we practice and experience musicals their engagement with technology and their navigation of international commercial marketplaces The Companion is the first collection to include global musical theatre in each chapter reflecting the musical s status as the world s most popular theatrical form This book brings together practice and scholarship featuring essays by leading and emerging scholars alongside luminaries such as Chinese musical theatre composer San Bao Tony Award winning star Andr De Shields and Tony Award winning director Diane Paulus This is an essential resource for students on theatre and performance courses and an invaluable text for researchers and practitioners in these areas of study Seeing Red Sarah Oates, Gordon Neil Ramsay, 2024 The U S media has been tainted with Russian disinformation but the more significant threat is how the Right has embraced the Russian model of the news media as a vehicle for propaganda This could not have happened without Donald Trump who has been aided and abetted by politicians and news outlets that favor persuasion over information From his inauguration onwards Trump has shown allegiance to the Kremlin propaganda playbook he consistently denies reality amplifies lies vilifies the free media and broadcasts disinformation Seeing Red breaks new ground in investigating the scope of Russian disinformation arguing that key politicians and media outlets in the United States have facilitated the dissemination of Russian propaganda From the 2020 elections to the Capitol Insurrection to the war in Ukraine Sarah Oates and Gordon Neil Ramsay examine the penetration of key Kremlin strategic narratives that attempt to project Russian power blame NATO for Russian aggression and attack democracy via the U S news Despite knowledge of the risk and resourceful

work on tracking down Russian propaganda in the United States the problem of foreign disinformation continues to this day As Oates and Ramsay argue this is in part due to exploitation of the American tradition of free speech and the open nature of the U S media system Yet the much more dangerous menace lies not in how foreign governments attempt to manipulate the media but in how our media system has been compromised by domestic actors who follow an authoritarian playbook and promote anti democratic narratives When it is hard to tell the difference between what the Russians are saying about the Democrats and how Fox News is covering Joe Biden it is time to realize that some American outlets have crossed the line from news to propaganda

World Stages, Local Audiences Peter Dickinson, 2010-08-15 This book argues that the forms of intimacy and identification that come from being part of the public of a local performance provide a potential model for rethinking our roles as world citizens Using his own experience of recent theatrical practice in Vancouver as a starting point Dickinson maps the spaces of connection and contestation the flows of sentiment and social responsibility produced by different communities in response to global sports spectacles He also analyzes how such topics are taken up in the work of playwrights conceptual installation and performance artists like Ai Weiwei and Rebecca Belmore

negotiations that played out in airline branding route networks service standards and cultural policies It analyzes how airlines serve as vehicles for projecting soft power and cultural diplomacy while mediating between local traditions and global modernity Drawing on rich empirical examples from Angola Argentina Australia Belgium Brazil Jamaica Kenya France Hong Kong Indonesia Lebanon Mexico Peru South Africa Turkey and the United States this collection demonstrates how airlines employ sophisticated cultural management and corporate branding strategies to shape national and regional identities By examining airlines as sites where business strategy cultural policy and identity politics intersect this collection advances our understanding of how transportation infrastructure shapes social imaginaries and power relations in our increasingly connected yet culturally diverse world The research has important implications for scholars of business history cultural studies postcolonial theory and transportation geography while offering practical insights for policymakers and airline industry leaders
