Federal Personnel Guide, 2001 Kenneth D. Whitehead, 2001 *Guidelines for Selecting Matching Techniques for Ride Sharing* Benjamin H. Cottrell, 1982 Several matching techniques for ride sharing are available to serve a wide range of operating conditions. There is a need for guidelines to aid ride sharing agencies in Virginia in selecting the most appropriate matching technique. The objective of this research was to develop such guidelines. Information on the state of the art of ride share matching techniques was obtained through a literature review and telephone requests of ride sharing agencies and selected state departments of transportation. Interviews were conducted with personnel of the eleven ride sharing agencies operating in Virginia to obtain information for an analysis of their ride share matching techniques. Factors that identify the threshold point at which a computerized matching technique should be considered in lieu of a manual technique were defined. Guidelines that provide a procedure for selecting a matching technique by comparing the ride sharing agency's matching needs with the capabilities of a selected group of matching techniques were developed.
