Catalog of Unconfirmed Comets - Volume 2 Gary W. Kronk, Maik Meyer, 2024-05-30 This two volume catalog is the first in depth investigation of comets that were reported since the 17th century but not confirmed and subsequently lost Volume 2 covers objects observed between 1900 and the present a period that was dominated by photographic observations and the detection of much fainter objects This book provides a distinctive blend of the historical

and cultural aspects of comet hunting and discovery along with the utilization of contemporary tools in orbital mechanics and data analysis This comprehensive compilation offers a thorough catalog of unconfirmed comets Each case encompasses a detailed presentation of observations a discussion on the observer when feasible an examination of the historical context and a conclusive analysis of the object s nature The book predominantly showcases original material and photographs sourced from observatories libraries and historical societies worldwide exposing a significant number of illustrations that have never been previously published While some of these unconfirmed comets were determined to be misidentifications of minor planets artifacts caused by emulsion or optical effects or inaccurate observations of comets that were already under observation the Authors did manage to identify numerous objects that were likely genuine comets These observations hold potential value for the future as they could be observations of periodic comets yet to be formally identified In a handful of instances the Authors were also able to find new observations which led to the calculation of orbits for the first time enabling a formal announcement or identifying suspected comets that were already known to be periodic comets

Opting Out of Digital Media Bonnie Brennen, 2019-05-15 Opting out of Digital Media showcases the role of human agency and cultural identity in the development and use of digital technologies Based on academic research news and trade reports popular culture and 105 in depth interviews this book explores the contemporary opting out trend It focuses directly on people s intentions and the many reasons why they engage with or reject digital technologies Author Bonnie Brennen illustrates the nuanced thinking and numerous reasons why people choose to use some new technologies and reject others Some interviewees opt out of digital technologies because of their ethical political environmental religious or cultural beliefs Other people consider new media superficial diversions that do not meet their expectations needs or interests while some citizens worry about issues of privacy and security and reject digital technologies because of their fears Still other people construct their cultural identities through the choices they make about their use of new media In many cases the use or nonuse of digital technologies offers specific representations of how people assert their independence authority and agency over new media while in some cases the choices that people make about new technologies also illustrate their class position or socioeconomic status Opting Out of Digital Media responds to the growing opting out trend addressing the developments in the unplugging phenomenon It serves as the ideal text for any reader interested in the role of digital technologies in our lives and how it has become a part of a mainstream movement
