**Artful AI in Writing Instruction** Brett Vogelsinger, 2025-05-14 Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking Feeling conflicted about integrating artificial intelligence AI into your writing instruction You're not alone In a world where AI generated text can seem like a writing teacher's enemy incorporating it into writing instruction may feel like an act of betrayal The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking Artful AI in Writing Instruction offers strategies and lessons for middle and high school teachers to harness AI in a positive way integrating it into the writing process and evaluating the ethics of its usage Written by a full time high school teacher Brett Vogelsinger the book focuses on evergreen principles and ideas rather than specific AI tools providing concrete steps and lessons that teachers can implement without being technology experts Acknowledging the varying perspectives of teachers

on AI in writing instruction from skepticism to enthusiasm Brett offers a human centered considered and ethical approach to using generative AI in the classroom Demonstrating how AI can be used artfully in the classroom to enhance students writing skills and foster reflection on the writing process this book Provides standards aligned lessons that detail how AI can support instruction and assist students at each step of the writing process from prewriting through publishing Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction Includes chapter features such as quotes from esteemed writers real teacher and student voices cautionary notes and Bot Thoughts entries of example AI output Artful AI in Writing Instruction is a book that explores technology with humility critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development

*The Startup Protocol* Sally Ann Frank, 2024-03-01 There are lots of founders and lots of ideas floating around to help improve the delivery of healthcare services and positively affect the health of each of us as individuals as well as groups of patients afflicted by chronic or acute diseases Unfortunately many of these ideas never reach their full potential to improve patient outcomes or reduce costs of care Sometimes it s because the idea isn t feasible or scalable Sometimes it s because the market isn t ready or regulators aren t ready And sometimes it s just because the founder or founding team has a blind spot or two Not only do these hidden blind spots ensure their failure but in many cases with better planning or a greater more holistic understanding of the market forces the blind spot can be overcome Or better yet the founder can realize that their idea is doomed from the start and consider other better options to solve the problem they are attacking The goal of this book is to help founders and their teams identify blind spots and avoid the most common pitfalls of starting a digital health company Having spent time with founders VC companies and most importantly prospective digital health startups patterns have emerged regarding those startups that are successful and those that die an often slow and painful death While not a recipe for guaranteed success having a guidebook of sorts can help navigate the perils associated with building a digital health company and can very likely improve the odds of success The book will go through the typical life cycle of an early stage company from ideation to the first few customer deals and highlight best practices for tackling the challenges at each stage including What problem are you trying to solve And why are you trying to solve this problem Who will help you build the solution and company How will you build the solution How will you pitch your company How will you sell your solution And what does success look like to you your stakeholders and your customers
