Ghosts in the Dating App Machine Gregory Narr,2025-10-28 Ghosts in the Dating App Machine offers a critical examination of the shift to dating apps to illustrate key features of a broader shift to a mode of data colonialism based on datafication and AI orchestration This book analyses 48 in depth and mediated interviews forums blogs and official statements made by dating apps It situates this transition within the broader culture of data colonialism through close readings of science fiction suggesting the world has become like Us where doppelgangers

constituted from reprehensible proclivities have emerged as digital profiles reflected back to users through the horrific play of social media mirrors to govern their encounters against their wishes These mirrors allow media companies to conduct surreptitious experiments on users dispossessed desires devise digital doppelgangers from those they disavow and compel behaviors that are lucrative precisely because they are misaligned with humane values Yet this horrific play of mirrors is not inevitable By attending to the ghosts of colonialism unleashed by media companies through the approach developed in this book it is still possible to galvanize the collective will to combat data colonialism and strive to create a world where love disentangled from colonial modes of desire is possible This study will interest scholars attempting to understand the rapidly evolving ecology of dating apps within the areas of digital media media sociology cultural studies anthropology and media and communication studies

Digital Note-Taking Tools

Zuri Deepwater, AI, 2025-02-22

Digital Note-Taking Tools explores how digital applications like Evernote and Notion can revolutionize learning and knowledge management in an age of information overload. The book argues that the effectiveness of these tools relies on strategic integration with personal workflows and alignment with cognitive science principles. For example, integrating multimedia elements into notes can significantly enhance retention, and employing search capabilities allows for quick retrieval of information, addressing the challenges posed by the increasing volume and variety of data encountered daily. The

book provides a comparative analysis of popular platforms evaluating features like organization search and collaboration capabilities It also explores effective note taking strategies such as the Cornell method Zettelkasten and mind mapping demonstrating how these can be enhanced within digital environments By integrating business management principles with information technology and educational psychology the book offers a holistic view of digital note taking Structured to guide readers progressively the book begins with core concepts and a historical overview moving into comparative analyses and strategy implementation It culminates with practical applications and case studies across diverse fields making it a valuable resource for students professionals and educators seeking to optimize their learning and productivity *Bud's Easy Note*
