you are like most people you probably have never tried Microsoft's powerful note taking software. That's a shame because it's one of the most powerful ways to collaborate on ideas and take projects to the next level. Microsoft OneNote was released in 2003 before things like Pinterest had taken the world by storm. Its intuitive software environment allows users to work either in their web browser or on their computer to create, store, and share notes. This book is intended for people who are curious about the software or want to learn how to use it. It will cover adding notebooks, sections, and pages; inserting shapes and pictures; password protecting notes; organizing and tagging; printing notes; sharing notes; and more. If you're ready to unlock OneNote, then let's go.
