Creators to Commerce William Liu, 2025-09 **Creators to Commerce** is a playbook for turning viral attention into sustainable business. TikTok has flipped the traditional model: audiences now demand products before they exist, and creators must scramble to meet that demand. This book shows you how to bridge the gap between a viral moment and a viable company. Through real creator stories, you'll learn why your first product should never be your dream product, how to calculate active attention inventory, and why cash flow, not revenue, decides survival. You'll see how beauty, fitness, craft, and lifestyle creators launched brands from their bedrooms and why some scaled to seven figures while others collapsed under inventory, shipping, and trust failures. Inside, you'll discover the hidden economics of TikTok commerce: the 3 product types that must sell for \$29.99, why creators with 100K followers often out-earn those with 5M, how to turn audience loyalty into repeat customers, and avoid one-hit wonder traps. The operational realities of manufacturing, fulfillment, and cash flow planning. How to protect authenticity while building scalable systems and teams. Whether you're a TikTok creator ready to monetize, an entrepreneur studying the new economy, or a fan curious how viral ideas become multimillion-dollar brands, **Creators to Commerce** delivers the roadmap. The creator economy isn't a fad; it's rewriting the rules of business, one TikTok at a time.
