**Flip-Flops and Microwaved Fish** Peter Yawitz, 2022-08-02 Revised Edition A Young Business Professional's Guide to Office Communication and Workplace Culture Flip Flops and Microwaved Fish offers very practical and hysterically funny advice on effective office communication. It has become the go-to guide for people either starting out in a career, being promoted to manager, or working for an American company for the first time. The book provides useful career advice and workplace communication skills that can be immediately implemented to help anyone navigate through and succeed in their company culture. In a light-hearted and conversational way and using tons of examples, Peter Yawitz, a 30-year veteran in global communications consulting, walks readers through not only formal and written rules of office communication but also unwritten business norms. As Someone Else's Dad, he counsels a new generation of workers without the nagging and judgment they might receive from their own parents. His candid and action-oriented advice will help readers get better at mastering small talk, writing persuasive emails, making sense of the hybrid workplace, dealing with sneaky coworkers, managing distracted bosses, and asking for a raise. Readers will find an advocate in Yawitz, someone who can help them succeed both professionally and socially at work. They'll laugh out loud while they develop the insights needed to advance in their careers.

**Family Plots** Dana Heller, 1995-08 Demonstrates an approach toward contemporary popular culture that accounts for the transitory condition of the American family romance and argues that the family romance must be seen as both a cause and effect of a more widespread cultural remapping. Discussions on television's romance with the family and works by authors such as Anne Tyler and Amy Tan explore how new family romances critique Oedipal imperatives and cultural norms. Paper edition, unseen. 14.95. Annotation copyright by Book News, Inc., Portland, OR.

**Fear and Nature** Christy Tidwell, Carter Soles, 2021-05-10 Ecohorror represents human fears about the natural world: killer plants and animals, catastrophic weather events, and disquieting encounters with the nonhuman. Its portrayals of animals, the environment, and even scientists build on popular conceptions of zoology, ecology, and the scientific process. As such, ecohorror is a genre uniquely situated to address life, art, and the dangers of scientific knowledge in the Anthropocene. Featuring new readings of the genre, *Fear and Nature* brings ecohorror texts and theories into conversation with other critical discourses. The chapters cover a variety of media forms from literature and short fiction to manga, poetry, television, and film. The chronological range is equally varied, beginning in the nineteenth century with the work of Edgar Allan Poe and finishing in the twenty-first with Stephen King and Guillermo del Toro. This range highlights the significance of ecohorror as a mode. In their analyses, the contributors make explicit connections across chapters, question the limits of the genre, and address the ways in which our fears about nature intersect with those we hold about the racial, animal, and bodily other. A foundational text, this volume will appeal to specialists in horror studies, Gothic studies, the environmental humanities, and ecocriticism. In addition to the editors, the contributors include Kristen Angierski, Bridgitte Barclay, Marisol Cortez, Chelsea Davis, Joseph K. Heumann, Dawn Keetley,
