***Viral Critique*** Hannah Richter, 2023-09-25 This book brings together papers that employ postfoundational theory to critically investigate the social political economic and ecological dynamics and power structures that shaped Western democracies non Western societies and international politics during the COVID 19 pandemic The COVID 19 pandemic disrupted not only social relations and personal lives across the globe but also the landscape of postfoundational theory Giorgio Agamben one of its most prominent figures attracted harsh criticism for his suggestion that the pandemic was nothing but an invented tool of state power In the face of a collectively experienced emergency it seemed tempting to forgo critical questioning in favour of taking action on a manifestly real viral threat Resisting this temptation this volume makes the case that COVID 19 has rendered postfoundational critique urgently necessary The chapters collected here use postfoundational theory to unpack the pandemic s global social event beyond dominant narratives of unprecedentedness exception and necessity The authors explore where the pandemic has actually altered political social and economic dynamics But they also highlight where divisions inequalities and expropriation continued unchanged or even reinforced throughout and after the COVID 19 event The chapters apply scrutinise and re work the writings of postfoundational thinkers from Jacques Derrida Roberto Esposito and Gilles Deleuze to Jasbir Puar to both offer a better understanding of the pandemic s social reality and to draw from it visions for a different post pandemic future *Viral Critique* will be a key resource for academics researchers and advanced students of Philosophy Political Science Sociology Economics and Cultural Studies The chapters included in this book were originally published as a special issue of *Distinktion Journal of Social Theory*

**Changing World Economic Order in the Post-Pandemic Period** Mahapatra, Sushanta Kumar, Sarin, Vishal, 2023-06-02 Post COVID 19 the world will never be the same The pandemic not only shattered many assumptions about economic developments and growth but it also challenged our preparedness to face any unpredictable challenge as a human

civilization in an era where science and technology is at its peak To suppress the spread of COVID 19 many countries resorted to partial or full closure of their borders and restricted the movement of people Mandatory quarantine restricted labor mobility and workplace closure which later converted into supply shocks in the economy as these measures impaired the economy's production capacity disrupting supplies This later spilled over to the demand side as people were locked down in their homes and workers were laid off and lost income This disruption posed many new challenges for policymakers to formulate appropriate macroeconomic policy responses and also provided them the opportunity to ponder upon the preparedness of countries in terms of health facilities appropriately compensating human resources how to cushion immediate and severe economic shocks and how to maintain the livelihood of the society as a whole

*Changing World Economic Order in the Post Pandemic Period* provides scientific knowledge of the current economic scenarios across the globe with a comprehensive overview of the pandemic and regional initiatives trends of trade and development and approaches to overcome obstacles of globalization and the impacts on global trade and economic development in light of the pandemic The chapters present tangible solutions and attainable perspectives for fighting a battle against the pandemic while keeping the morale of the people and economy high Highlighted topics include post pandemic economic development public policy in emergency situations socio economic impacts on enterprises risk governance and impacts of COVID 19 This book is ideally intended for university students researchers policymakers economic actors economists practitioners stakeholders government officials academicians and anyone interested in the impact of a pandemic on the global economy and how to deal with such issues in the future
