Conquer Your Virtual Model Javier Galiana in, 2025-07-08 That witty comment you post sinking into a sea of notifications That DM you send hoping this time it will be different And then silence You re shouting in a crowded digital stadium and she can t hear you You see others get a shout out a reply a fraction of the connection you crave and you have to ask What are they doing that I m not The answer is both simpler and more profound than you think It s not about being more persistent It s not about spending more money It s not about getting lucky It s that they understand the game and you don t even have the rulebook Content creators operate on an unwritten code a psychology of attention that 99% of their followers completely ignore This book deciphers that code for you This isn t a collection of cheap pickup lines or manipulative tricks This is your initiation into the 1% Inside you will master THE CREATOR S PSYCHOLOGY Understand how her mind works what she truly values in an interaction and why most attempts to connect fail miserably THE ART OF STANDING OUT Discover how to stop being just another fan and become a unique memorable presence We ll give you the keys to make your interaction a breath of fresh air not more noise CONVERSATIONAL CHEMISTRY Learn to build dialogues that generate genuine attraction and curiosity making her not only enjoy but even look for your messages in the crowd THE CONNECTION LADDER We ll guide you through the process of evolving the relationship from a simple follower to someone she shares an authentic personal and valued connection with This book is a precision tool It is not for Those looking for shallow shortcuts or effortless results Anyone planning to use tricks to manipulate or deceive Men who aren t willing to build something genuine It s for the intelligent man who knows a real connection is built not forced and is ready to learn how You can keep doing the same thing expecting a different result and watch your effort and money dissolve into the crowd Or you can finally get the map The question isn t if it s possible The question is Are you going to remain a number on her screen or will you become a name in her mind Scroll up and click Buy Now The manual that gives you the ultimate advantage is waiting Virtual Events Management Tim Brown, Claire Drakeley, 2023-08-30 The COVID 19 pandemic and resulting lockdowns has seen a boom in the occurrence of virtual events Virtual Events Management is a unique text as it looks at events from both a live event virtual event and hybrid perspective **Student Agency in Devised Theatre Education** Mike Poblete, 2025-02-27 This monograph argues that implementing devised theatre as a learning praxis has a unique potential to cultivate student agency in the twenty first century classroom It offers actionable guidance for drama instructors by providing a new arts education methodology that emphasizes the role of student led dramaturgy Based on quantitative and qualitative analyses of survey results group interviews and field observations from the facilitation of two original pieces of digital devised theatre created by Pacific Islander and Asian American public high school students on Oahu the author documents the crucial roles of constructive and resisting student agency in a devised theatre classroom This book then departs from established research in suggesting that passivity serves a crucial role in allowing students to assert agency nonconfrontationally which has

considerable implications for peripatetic learners It also investigates the role of student agency in online theatre education which along with expected challenges was found to produce unique benefits such as real time documented performance feedback and accessible asynchronous teacher guidance Further a new form of student agency is identified one exclusive to online learning environments where students assert themselves by discussing technological challenges such as slow Wi Fi camera malfunctions or other pragmatic concerns Finally this book makes a case that the success of these projects with Pacific Islander and Asian American students suggests that although devising comes from a White Eurocentric tradition it can provide an effective learning strategy for students from a wide variety of backgrounds As global discourse continues to push toward reform that would allow populations around the world increased agency over their lives this volume makes a unique contribution to the critical conversation around student agency in education today and will appeal to scholars and researchers across arts education and theatre and performance studies
