R.,Bhatia, Surbhi,2021-06-25 Multinational organizations have begun to realize that sentiment mining plays an important role for decision making and market strategy The revolutionary growth of digital marketing not only changes the market game but also brings forth new opportunities for skilled professionals and expertise Currently the technologies are rapidly changing and artificial intelligence AI and machine learning are contributing as game changing technologies These are not only trending but are also increasingly popular among data scientists and data analysts New Opportunities for Sentiment Analysis and Information Processing provides interdisciplinary research in information retrieval and sentiment analysis including studies on extracting sentiments from textual data sentiment visualization based dimensionality reduction for multiple features and deep learning based multi domain sentiment extraction The book also optimizes techniques used for sentiment identification and examines applications of sentiment analysis and emotion detection Covering such topics as communication networks natural language processing and semantic analysis this book is essential for data scientists data analysts IT specialists scientists researchers academicians and students **Copyright and Anonymity in the Creative User-Generated World** Rachel Maguire,2025-05-01 This book explores the relationship between copyright law online anonymity and creative user generated content CUGC Presenting original empirical findings the book evaluates the co existence of copyright law and normative systems regulating a CUGC landscape made up of artists photographers and writers and makes novel recommendations for copyright reform It takes a multi jurisdictional approach across Anglo American and EU legal systems using the UK USA and Germany as representative jurisdictions for legal analysis Qualitative findings are drawn from creators and communities on Reddit and 4chan Copyright subsists in much CUGC but pervasive anonymity makes it difficult for the law to regulate it effectively Simultaneously anonymity offers creative benefits in a way that highlights flaws in traditional justifications of copyright Comparisons between community norms and copyright law identify practical differences but also fundamental compatibilities in terms of ownership expectations However the simultaneous existence of legal and normative enforcement mechanisms complicates matters for creators and potential users with negative implications for creativity and copyright law While existing reform efforts have made suggestions to create a UGC exception these overlook and undermine the role of CUGC creators as copyright holders This can be addressed through the consideration of a framework of supplementary CUGC guidelines when developing such

reforms This valuable resource for researchers and students provides a distinct perspective in framing CUGC creators as copyright holders examining online anonymity as a pivotal factor influencing regulation

Reporting Humanitarian Disasters in a Social Media Age Glenda Cooper, 2018-10-26 From the tsunami to Hurricane Sandy the Nepal earthquake to Syrian refugees defining images and accounts of humanitarian crises are now often created not by journalists but by ordinary citizens using Twitter Facebook YouTube Instagram and Snapchat But how has the use of this content and the way it is spread by social media altered the rituals around disaster reporting the close if not symbiotic relationship between journalists and aid agencies and the kind of crises that are covered Drawing on more than 100 in depth interviews with journalists and aid agency press officers participant observations at the Guardian BBC and Save the Children UK as well as the ordinary people who created the words and pictures that framed these disasters this book reveals how humanitarian disasters are covered in the 21st century and the potential consequences for those who posted a tweet a video or photo without ever realising how far it would go
