Zeinab,Abdullah, Rusli,Ahrari, Seyedali,2024-07-24 In an era defined by the relentless march of technology the seamless integration of Artificial Intelligence AI into our daily lives has ushered in a transformative landscape At the forefront of this evolution are the Digital Natives of Generation AI navigating the complexities of a digital world where algorithms are integral to their daily experiences This juncture presents a dual influence marked by the continuous progression of technological advancements and the dynamic ways the youngest members of our society engage with and adapt to the digital environment As we stand at the crossroads of youth studies and AI there arises a pressing need to comprehend the profound impact of this convergence on the future leaders of our world Addressing this imperative Exploring Youth Studies in the Age of AI emerges as a comprehensive solution to unravel the complexities and opportunities within this evolving landscape This book meticulously crafted for academics researchers educators policymakers and technology ethicists serves as a guiding beacon in understanding how AI shapes the experiences of today s youth and in turn how youth culture influences the development and application of AI technologies With a collection of enlightening chapters covering topics from Data Driven Pedagogies to Ethical AI Guiding Principles for Youth Centric Development the book delves deep into the diverse dimensions of this intersection providing actionable insights and fostering a nuanced understanding for those invested in the ethical social and educational implications of AI within the context of youth **Handbook of Youth Development** Sibnath Deb,Shayana Deb,2023-11-01 This handbook provides a comprehensive overview of youth development including theories and applications across different countries namely India the UK and Australia It presents the status of youth and their role in society their

education and their career perspectives The focus is on developing youth's internal abilities by providing a creative and supportive environment through appropriate mentorship and encouragement It discusses a wide range of contemporary and relevant issues relating to holistic career growth of youth whereby youth work is recognized as a profession Academicians from various disciplinary backgrounds offer conceptual and methodological perspectives Chapters into five themes focus on a balance between developing stable protective factors for mental health and positive youth development to ensure appropriate cognitive social emotional and behavioral skills needed to thrive in an evolving world It discusses the status of the youth in terms of digital competency engagement of youth in sports teaching political process and community development activities in the present and rapidly altering world scenario The book also discusses the role of institution based family counseling for healthy youth development Given its comprehensive coverage the handbook is an essential resource for a broad audience of youth researchers practitioners and policymakers of population sciences childhood and youth studies development studies and psychology

Surveillance Education Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education
