Addressing these challenges is crucial for fostering a more holistic understanding of pedagogical development and improving the quality of teacher education. *Inquiries of Pedagogical Shifts and Critical Mindsets Among Educators* delves into unexplored pedagogy through a compendium of original research studies. The focus is on narrative inquiries, case studies, and phenomenological investigations offering a nuanced understanding of pedagogical shifts and critical mindsets among P-16 educators. Inspired by Novoa's conceptualization of Tipping Points, the book unfolds the narratives and lived experiences that propel educators toward transformative shifts in their teaching methodologies.
