support to network research      **Handbook of Research on E-Learning Standards and Interoperability: Frameworks and Issues** Lazarinis, Fotis, Green, Steve, Pearson, Elaine, 2010-08-31 Handbook of Research on E Learning Standards and Interoperability Frameworks and Issues promotes the discussion of specific solutions for increasing the interoperability of standalone and Web based educational tools This book investigates issues arising from the deployment of learning standards and provides relevant theoretical frameworks and leading empirical research findings Chapters presented in this work are suitable for practitioners and researchers in the area of educational technology with a focus on content reusability and interoperability      **CRREL Technical Publications** Cold Regions Research and Engineering Laboratory (U.S.), 1981

*Rethinking the North American Long Poem* Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence *Rethinking the North American Long Poem* focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman's *Song of Myself* Ezra Pound's *The Cantos* Muriel Rukeyser's *The Book of the Dead* and Charles Olson's *The Maximus Poems* They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis's *Drafts* M NourbeSe Philip's *Zong* and Claudia Rankine's *Citizen* Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present      Saturation Melody Jue, Rafico Ruiz, 2021-08-23 Bringing together media studies and environmental humanities the contributors to *Saturation* develop saturation as a heuristic to analyze phenomena in which the elements involved are difficult or impossible to separate In ordinary language saturation describes the condition of being thoroughly soaked while in chemistry it is the threshold at which something can be maximally dissolved or absorbed in a solution Contributors to this collection expand notions of saturation beyond water to consider saturation in sound infrastructure media Big Data capitalism and visual culture Essays include analyses of the thresholds of HIV detectability in bloodwork militarism's saturation of oceans and the deleterious effects of the saturation of cellphone and wi fi signals into the human body By channeling saturation to explore the relationship between media the environment technology capital and the legacies of settler colonialism *Saturation* illuminates how elements the natural world and anthropogenic infrastructures politics and processes exist in and through each other Contributors Marija Cetini Jeff Diamanti Bishnupriya Ghosh Lisa Yin Han Stefan Helmreich M l Hogan Melody Jue Rahul Mukherjee Max Ritts Rafico Ruiz Bhaskar Sarkar John Shiga Avery Slater Janet Walker Joanna Zylinska      Proceedings of the Thirteenth National Conference on Artificial Intelligence and the Eighth

Innovative Applications of Artificial Intelligence Conference American Association for Artificial Intelligence, 1996 AAAI proceedings describe innovative concepts techniques perspectives and observations that present promising research directions in artificial intelligence August 4-8 1996 Portland Oregon AAAI 96 provides a broad forum for information exchange and interaction among researchers working in different subdisciplines in different research paradigms and in different stages of research in artificial intelligence Topics cover principles underlying cognition perception and action design application and evaluation of AI algorithms and systems architectures and frameworks for classes of AI systems and analysis of tasks and domains in which intelligent systems perform Included are contributions that describe theoretical empirical or experimental results represent areas of AI that may have been underrepresented in recent conferences present promising new research concepts techniques or perspectives or discuss issues that cross traditional subdisciplinary boundaries Two volume set Distributed for the AAAI Press

Monteverdi's Tonal Language Eric Thomas Chafe, 1992 Claudio Monteverdi's sixty year compositional career spans one of the most crucial junctures in Western music Laying the groundwork for harmonic tonality the pervasive musical language of Western culture until the twentieth century Monteverdi's break with the self-contained harmonic world of the Renaissance and his confident assertion of human rationality and order through music was a crucial contribution to the emergence of the Baroque style Monteverdi's Tonal Language is a provocative new examination of the theoretical issues surrounding the emergence of early seventeenth century tonality combined with systematic analysis of a wide range of Monteverdi's secular works Eric Chafe argues that the composer's music was rooted in a strong sense of musical logic and a secure grasp of tonality combined with Monteverdi's assertion that music should be dominated by allegory Chafe offers a new framework for understanding the complex historical style and systematic features of the tonal language of Monteverdi's time and the composer's particular version of it Building on Carl Dahlhaus's analysis of emerging tonality in Monteverdi's madrigals Chafe expands the scope of the modal hexachordal system rooted in the composer's work at the time of his fourth and fifth madrigal books In addition to covering text music relationships of a large and representative amount of Monteverdi's music Chafe discusses several unexplored areas crucial to any understanding of the composer's tonal language The two madrigals *Cor mio mentre vi miro* from Book Four and *O Mirtillo* from Book Five illustrate the theoretical features of early seventeenth century tonality Chafe examines the pronounced sense of tonal clarity that distinguishes the Fourth Book of Madrigals and he articulates the tonal styles

Monteverdi used as organizing criteria in the Fifth Book In subsequent chapters he demonstrates how the characteristic devices of Orfeo emerge as basic properties of the modal hexachordal system and discusses Monteverdi's creation of ordered reality in *Il Ballo delle in grate* and the *Lamento d Arianna* He further argues that the Sixth Book symbolized the interaction of polyphonic madrigal and monody and demonstrates convincingly that the Seventh Book was a milestone in Monteverdi's creative development assuming the characteristics that marked his later tonal style In the Eighth Book the composer set forth a manifesto for the allegorical nature of Baroque music *Il ritorno d Ulisse un patria* is a mature working out of the potential of tonal allegory Finally in the last three chapters Chafe discusses the tonal allegorical framework aspects of musical characterization and questions of authenticity in Monteverdi's last opera *L incoronazione di Poppea* BOOK JACKET
