**Artificial Intelligence Meets Augmented Reality**

Redefining Regular Reality is a unique book as it presents the new technology paradigm of artificial intelligence AI and augmented reality AR and its full transition right from major advantages that enhance entire industries to changing how the world operates at various levels. New realities will emerge in the context of our existing world through the combination of AI AR. The book presents both the bright and bleak sides of the AI AR duo in order to give a holistic view and help us to decide how we are going to leverage such technologies and whether their disruptive or transformative nature will mar or make the future of our world. A workforce of enlightened engineers is the key to designing and developing AI AR solutions with responsibility in order to achieve the greater good. Through the book, Chitra Lele has explained a multidisciplinary integrated approach as to how we can minimize barriers and blend AI and AR without destroying our natural settings. The book will help to chart out a path where there is no trail yet and get you started on developing AI AR solutions and experiences in bettering the world in an ethical and responsible manner.
