Remote Work, Internal Marketing and Human Resource Management Teena Mishra, 2024-12-02 Remote working is a developing idea that many organizations are embracing especially in light of COVID 19 and the rise in demand for remote and hybrid roles. As there is no standard model to use for implementation, a number of problems and difficulties develop as popularity increases and hybrid working environments become normalized. This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. This research volume will be of value to researchers, academicians, practitioners, and students in the fields of human resource management, organizational studies, and innovation management.

The Orange Code Arkadi Kuhlmann, Bruce Philp, 2008-11-03 How championing consumers led to ING Direct's revolutionary rise in the banking industry. In an industry dominated by big banks with little patience for their customers, ING Direct has always strived to be different, a rebel with a cause. If you will, and in doing so, they've become the most successful online banking venture in history. *The Orange Code* recounts ING Direct's intriguing story, explaining the philosophy of its founder Arkadi Kuhlmann, who believes in the power of individuals to control their financial destiny, and his long-running partnership with Bruce Philp, the branding consultant who helped him make ING Direct a cause to its own people and a household name across North America. Discusses the unconventional approach to business strategy, leadership, and management that built ING Direct. Written by the company's CEO Arkadi Kuhlmann, the driving force behind this unique company and its approach, and Bruce Philp, the branding expert who has worked with some of the world's most well-known and valuable brands. Reveals how the cause of personal financial empowerment has made everyone a winner in the ING Direct story. The level of success achieved by ING Direct holds some important lessons and offers some much-needed inspiration to a business world that could use a little of both right now.

Virtual Ascendance, Devin C. Griffiths, 2013-09-19 From school lunchrooms to the White House press room, video games are an integral part of our popular culture, and the industry behind them touches all aspects of our lives. Gamer and non-gamer alike, business and entertainment, health and medicine, politics and war, social interaction and education all fall under its influence. *Virtual Ascendance* tells the story of a formerly fringe enterprise that when few were paying attention, exploded into a multi-billion dollar industry affecting the very way we live. Griffiths paints a thorough and vivid picture of the video game industry, illuminating the various and often bizarre ways it's changing how we work, play, and live. He brings readers along on his own journey of

discovery from the back room of a small Irish pub where members of the second largest industry enclave meet each month to a university clinic where the Wii is being used to treat Parkinson s sufferers and everywhere in between Virtual Ascendance is more than just a story about video games though It s the story of an awakening of a realization that a childhood pastime has exploded into a thriving enterprise one rooted in entertainment but whose tendrils reach into virtually all aspects of life and society
