Research Handbook on Artificial Intelligence and Communication Seungahn Nah,2023-11-03 This forward looking Research Handbook makes an insightful contribution to the emerging field of studies on communication of by and with AI Bringing together state of the art research from over 50 leading international scholars across various fields it provides a comprehensive overview of the complex intersections between AI and communication **Handbook of Research on Innovative Management Using AI in Industry 5.0** Garg, Vikas,Goel, Richa,2021-11-19 There is no industry left where artificial intelligence is not used in some capacity The application of this technology has already stretched across a multitude of domains including law and policy it will soon permeate areas beyond anyone s imagination Technology giants such as Google Apple and Facebook are already investing their money effort and time toward integrating artificial intelligence As this technology continues to develop and expand it is critical for everyone to understand the various applications of artificial intelligence and its full potential The Handbook of Research on Innovative Management Using AI in Industry 5 0 uncovers new and innovative features of artificial intelligence and how it can help in raising economic efficiency at both micro and macro levels and provides a deeper understanding of the relevant aspects of artificial intelligence impacting efficacy for better output Covering topics such as consumer behavior information technology and personalized banking it is an ideal resource for researchers academicians policymakers business professionals companies and students *Multidisciplinary Research Area in Arts, Science & Commerce (Volume-5)* Chief Editor- Biplab Auddya, Editor- Dr. Rinki Mishra, Dr. Rajeshwari Ullagaddi, Dr. Ruma Bhadauria, Dr. Aakriti Rathi, Dr. N.V. Raghu Babu, Mr. Romero D'Souza,2025-08-06 **Innovation Sucks!** Alan Watkins,Simon May,2021-03-14 Businesses spend billions on innovation with very little to show for their investment or effort This book challenges some of the ingrained truths of innovation and suggests a different approach Innovation is not the creation of a novel idea It is the successful commercialisation of that novel idea Rather than starting with a costly time consuming problem assessment that seeks to push potential solutions through an innovation funnel an impeller approach starts with possible solutions and gets the market to pull the best ones forward so they can fail fast or flourish fast This approach is made possible by the addition of a bee a new type of integrative thinker who can harvest the existing knowledge from the meadow of experts Completely reversing the innovation process means organisations are much better placed to win in the market rather than focusing on finding theoretical solutions or clearing innovation stage gates In addition this approach also recognises that the people who shepherd the solution through the ideation and testing stage are not the same people who must then take that solution to market for successful commercialisation Given the current innovation failure rate coupled with the fact that society is beset with multiple wicked problems it s time to think differently and innovate innovation itself This book is essential reading for Heads of Innovation and Commercialisation Directors of Marketing Heads of New Product Development and New Service Development Strategy Directors Chief Technology Officers
