Consortium Workshops and Tutorials Fostering Cross-Industry Sustainability With Intelligent Technologies Mishra, Brojo Kishore, 2024-01-22 In today's context of intricate global challenges encompassing climate crises resource scarcity and social disparities the imperative for sustainable development has never been more pressing While academic scholars and researchers are instrumental in crafting solutions they often grapple with the intricate balance between theoretical concepts and practical implementation This gap impedes the transformation of innovative ideas into tangible societal progress leaving a void where effective real world strategies for cross industry sustainability should flourish Fostering Cross Industry Sustainability With Intelligent Technologies seeks to bridge this divide This book is more than just a collection of pages it serves as a roadmap for those determined to make a tangible impact It brings together a diverse group of esteemed experts from various disciplines offering a comprehensive spectrum of actionable insights all grounded in the ethical imperatives of inclusivity and environmental responsibility Anchored in the United Nations Sustainable Development Goals SDGs this volume serves as a guiding star channeling theoretical expertise into practical solutions For academic scholars scientists innovators and students alike Fostering Cross Industry Sustainability With Intelligent Technologies is the definitive guidepost It fosters a profound understanding of the real world implications of research promoting interdisciplinary collaborations that transcend conventional boundaries This comprehensive book presents a wealth of sustainable science and intelligent technology applications all while emphasizing the importance of ethics and societal impact With visionary insights woven throughout its pages it calls upon humanity to envision a future where challenges transform into opportunities and sustainable development becomes an attainable reality **Freedom and Social Inclusion in a Connected World** Yingqin Zheng, Pamela Abbott, Jose Antonio Robles-Flores, 2022-11-19 This book constitutes the refereed proceedings of the 17th IFIP WG 9.4 International Conference on Social Implications of Computers in Developing Countries ICT4D 2022 which was supposed to be held in Lima Peru in May 2021 but was held virtually instead due to the COVID 19 pandemic The 40 revised full papers presented were carefully reviewed and selected from 58 submissions The papers present a wide range of perspectives and disciplines including but not limited to public administration entrepreneurship business administration information technology for development information management systems organization studies philosophy and management They are organized in the following topical sections digital platforms and gig economy education and health inclusion and participation and business innovation and data privacy **Managing Artificial Intelligence and Expert Systems** Daniel A. De Salvo, Jay Liebowitz, 1990 Three major areas are examined teamwork required to implement AI technologies strategies for developing computer resources using AI and tactics for overseeing implementation and day to day operation Annotation copyrighted by Book News Inc Portland OR *An Expert System for the Diagnosis of Tank Irrigated Systems* Odile Oswald, 1991 AI Trends , 1988-10 *Artificial Intelligence Abstracts* , 1986 **Confronting Digital Dilemmas in Translator and Interpreter Training** Pavol Šveda, Martin Djovčoš, Emília Perez, 2025-10-30 This collection explores the

challenges and opportunities brought on by developments in emergent technologies for translator and interpreter training. Given the growing role of language professionals as mediators in an increasingly fragmented and globalized world, this book offers an in-depth look at the present and future of translator and interpreter training amidst these changes. Featuring perspectives from established and up-and-coming scholars, the volume is organized in three sections taking in turn different dimensions of the current training landscape. These parts consider key topics including theoretical foundations and pedagogical innovations, ethical considerations and social responsibility, and ways forward for adapting training programs to better grapple with new tools. Taken as a whole, this book will be a useful resource for students and scholars in translation and interpreting studies as well as practicing professionals.
