Josephus Nelson Larned,1895 **Unsustainable** Jessica Restaino,Laurie J. C. Cella,2013 Unsustainable Re imagining
Community Literacy Public Writing Service Learning and the University edited by Jessica Restaino and Laurie Cella explores
short lived university community writing projects in an effort to rethink the long held gold standard of long term
sustainability in community writing work Contributors examine their own efforts in order to provide alternate models for
understanding assessing and enacting university community writing projects that for a range of reasons fall outside of
traditional practice This collection considers what has become an increasingly unified call for praxis where scholar
practitioners explore a specific project that fell short of theorized best practice sustainability in order to determine not only
the nature of what remains how and why we might find value in a community based writing project that lacks long term
sustainability for example but also how or why we might rethink redefine and reevaluate best practice ideals in the first place
In so doing the contributors are at once responding to what has been an increasing acknowledgment in the field that for a
variety of reasons many community based writing projects do not go as initially planned and also applying in praxis a
framework for thinking about and studying such projects Unsustainable represents the kind of scholarly work that some of
the most recognizable names in the field have been calling for over the past five years This book affirms that unpredictability
is an indispensable factor in the field and argues that such unpredictability presents in fact demands a theoretical approach
that takes these practical experiences as its base Congressional Record United States. Congress,1969 The Congressional
