FY2025-FY2027 Medium-Term Budget International Monetary Fund. Office of Budget and Planning, 2024-05-10 The Executive Board of the International Monetary Fund approved the 2025-27 financial years FY25-27 medium term budget. While the global economy has shown resilience to successive adverse shocks, the overall global economic context remains complex with slow and uneven growth, increased fragmentation, deepening divergence, and still high interest rates despite easing inflationary pressures. Against this backdrop, the FY25-27 budget continues to be guided by principles of agility and budget discipline, reinforced by ongoing reprioritization and savings capture. It also builds on strong cooperation with other institutions, ensuring the Fund continues to focus on areas within its mandate even as it addresses new demands. Work to strengthen internal operations also continues, focusing on both efficiency and effectiveness in meeting changing needs in the post-pandemic workplace where rapid technological changes are underway. With significant demands within a constrained budget environment, the budget reflects difficult tradeoffs.
