Shaping the Digital Dissertation Virginia Kuhn, Anke Finger, 2021-05-04 This volume is a timely intervention that not only helps demystify the idea of a digital dissertation for students and their advisors but will be broadly applicable to the work of librarians, administrators, and anyone else concerned with the future of graduate study in the humanities and digital scholarly publishing. Roxanne Shirazi, The City University of New York. Digital dissertations have been a part of academic research for years now, yet there are still many questions surrounding their processes. Are interactive dissertations significantly different from their paper-based counterparts? What are the effects of digital projects on doctoral education? How does one choose and defend a digital dissertation? This book explores the wider implications of digital scholarship across institutional, geographic, and disciplinary divides. The volume is arranged in two sections: the first, written by senior scholars, addresses conceptual concerns regarding the direction and assessment of digital dissertations in the broader context of doctoral education. The second section consists of case studies by PhD students whose research resulted in a natively digital dissertation that they have successfully defended. These early-career researchers have been selected to represent a range of disciplines and institutions. Despite the profound effect of incorporated digital tools on dissertations, the literature concerning them is limited. This volume aims to provide a fresh, up-to-date view on the digital dissertation, considering the newest

technological advances It is especially relevant in the European context where digital dissertations mostly in arts based research are more popular Shaping the Digital Dissertation aims to provide insights precedents and best practices to graduate students doctoral advisors institutional agents and dissertation committees As digital dissertations have a potential impact on the state of research as a whole this edited collection will be a useful resource for the wider academic community and anyone interested in the future of doctoral studies Don't Do This: A Guide to Business Survival Furkat
