Harnessing AI's Potential to Support Student Success and Teaching Excellence Araujo, Juan J., Snider, Sharla, 2025-07-15

With the integration of AI in educational environments AI has shaped the way schools operate and support students. Personalized learning platforms and tutoring systems have transformed the traditional schooling system for the better. However, the deployment of AI in school settings also raises critical questions around equity, privacy, ethical use, and the role of educators in a technology-enhanced landscape. Examining the impact of AI usage in schools is essential to understand both its potential to enhance educational outcomes and the challenges that must be addressed to ensure it serves all learners effectively and responsibly. Harnessing AI's Potential to Support Student Success and Teaching Excellence explores the landscape of AI in education and how it has helped and hindered school settings. This book highlights both the transformative potential of AI and the risks associated with its unchecked advancement, emphasizing the importance of responsible innovation in education. Covering topics such as education, AI, and technology, this book is an excellent resource for teachers, administrators, and policymakers searching for the right approach for such AI implementation. **Project-Based**

Learning+, Grades 6-12 Jorge Valenzuela, 2023-08-26. Project-Based Learning PLUS Social and Emotional Learning equals student and educator success. Imagine not only helping kids reach their potential academically but as citizens in society as well. In this groundbreaking new book, you will learn how to take project-based learning (PBL) to the next level by enhancing it with personal competencies like self-management, social awareness, and responsible decision-making. Written by an expert in PBL, student well-being, and technology, with different levels of educator PBL experience in mind, this guide to harnessing the power of these approaches provides the five elements of the PBL Framework, Tools, and rubrics that help you engage all students and assess their projects. Ways to align PBL with the five SEL competencies outlined by CASEL. Tips for putting PBL into practice to facilitate your own teaching plans. The framework described in this book is grounded by research and supported by practical steps, is replicable in any classroom, and provides educators guidance for strengthening their instructional practice to create an empowering student experience. **Teaching and Learning in the Age of Generative AI** Joseph Rene Corbeil, Maria

Elena Corbeil, 2025-04-30. Teaching and Learning in the Age of Generative AI explores how educators can effectively harness the potential of artificial intelligence technologies while skillfully navigating its pedagogical, technical, ethical, institutional, and societal implications. The increasing accessibility of AI technologies among K-12 and higher education students has raised extensive concerns around academic integrity, though a deeper lineage of research and development suggests that these tools may be used to supplement instruction, prioritize critical thinking, and promote digital literacy. Bookended by in-depth analyses of the historical and future trajectories of artificial intelligence in education, this comprehensive resource provides evidence-based strategies for classroom implementation and helpful summaries of common benefits and risks.
