Handbook of Research on Remote Work and Worker

Well-Being in the Post-COVID-19 Era Wheatley, Daniel, Hardill, Irene, Buglass, Sarah, 2021-04-16 With the introduction of policies to combat COVID 19 far greater numbers of employees across the globe including those with limited job autonomy have moved to undertake their entire job at home Although challenging in the current climate embracing these flexible

modes of work such as working at home including relevant investment in technology to enable this will not only deliver potential organizational benefits but also increase the adaptability of the labor market in the short and longer terms Although perhaps not the central concern of many in the current climate good home based work is achievable and perhaps even a solution to the current work based dilemma created by COVID 19 and should be a common goal for individuals organizations and society Research also has shifted to focus on the routines of workers organizational performance and well being of companies and their employees along with reflections on the ways in which these developments may influence and alter the nature of paid work into the post COVID 19 era The Handbook of Research on Remote Work and Worker Well Being in the Post COVID 19 Era focuses on the rapid expansion of remote working in response to the global COVID 19 pandemic and the impacts it has had on both employees and businesses The content of the book progresses understanding and raises awareness of the benefits and challenges faced by large scale movements to remote working considering the wide array of different ways in which the large scale movement to remote working is impacting working lives and the economy This book covers how different fields of work are responding and implementing remote work along with providing a presentation of how work occurs in digital spaces and the impacts on different topics such as gender dynamics and virtual togetherness It is an ideal reference book for HR professionals business managers executives entrepreneurs policymakers researchers students practitioners academicians and business professionals interested in the latest research on remote working and its impacts

Popular Mechanics Magazine ,1922 **Work-Life Balance in Architecture** Igea Troiani,2024-03-04 This book seeks to improve the work lives of architects of diverse demographics who do not fit or want to replicate the traditional 24 7 white male architect lifestyle Aimed at a workforce whose life and career expectations have changed drastically in recent years it helps readers of different generations to make informed choices about their careers enabling students educators and professionals to prioritise wellbeing and offer their design and practice voice to enhance a built environment for all Work Life Balance in Architecture examines what it means to play the game of architecture to choose to study and pursue a career in architecture rather than another profession The book shows the economic social and professional structures within which architectural education and practice operate and reveals the impact of a corporate neoliberal big business mentality on wellbeing After setting out the context exacerbating work life imbalance the book discusses the paths an architect may take whether this leads to a career in practice or not in architecture at all and how alternative gameplay moves can advantage or disadvantage those of different gender class ethnicity race or age at different career stages It concludes by examining how the places in which an architect works the time available to work and critiques of perpetual neoliberal economic growth can enhance the lives of all architects today **Reinventing Work** Martin Reeves,Deborah Lovich,2024-10-21 Organizations often declare that their biggest asset is their people As such business leaders make constant efforts to hire the best talent and to get the best out of their workers But a confluence of forces is reshaping all aspects of talent management A war for

talent rages and will be exacerbated in the long term by demographic aging the half life of skills is decreasing as AI powers more parts of business workflows flexible and hybrid work models are becoming commonplace and management methods focused on measurement and efficiency are not sufficient for engaging a purpose seeking generation In these turbulent times CEOs and their entire teams not just HR need to rethink how they can create a people advantage going beyond traditional approaches to organization performance management and compensation This book a collection of recent essays written by researchers at the BCG Henderson Institute Boston Consulting Group s think tank aims to help leaders to reinvent work by providing a forward looking perspective on all aspects of talent management Across five chapters the book discusses How to attract the talent of the future How to shape the workforce in an evolving context How to embrace new models of work How to build the workplace of the future How to establish new models of leadership and culture By providing a combination of new ideas real world examples and concrete recommendations Reinventing Work serves as a guide for leaders to effectively navigate the changing nature of work
